

TABLE OF CONTENTS

SUMMARY	XI
ZUSAMMENFASSUNG	XVII

CHAPTER 1: GENERAL INTRODUCTION	23
1.1 Fate of organic micropollutants	24
1.2 Natural toxins	25
1.3 Mycotoxin producing fungi	25
1.4 Classification and chemical structures of mycotoxins	28
1.5 Occurrence of mycotoxins in food and feed	30
1.6 Toxicity of mycotoxins	33
1.7 Occurrence of mycotoxins in the aquatic environment	35
1.8 Objectives of this doctoral thesis	38
1.9 Strategies to achieve the objectives	39
1.10 List of publications out of this doctoral thesis	40
References (chapter 1)	41

CHAPTER 2: MULTI-RESIDUE SCREENING METHOD TO QUANTIFY MYCOTOXINS IN AQUEOUS ENVIRONMENTAL SAMPLES	55
Abstract	56
2.1. Introduction	57
2.2. Materials and Methods	59
2.2.1 Chemicals	59
2.2.2 Sample Collection and preparation	63
2.2.3 Solid Phase Extraction (SPE)	63
2.2.4 LC-MS/MS Analysis	64
2.2.5 Method validation parameter	65
2.3. Results and Discussion	67
2.3.1 Optimization of the extraction method	67
2.3.2 Chromatographic separation and MS detection	68
2.3.3 Validation of the optimized method	71
2.3.4 Environmental application	77

References (chapter 2)	81
Supporting Information	85

CHAPTER 3: DEVELOPMENT, VALIDATION AND APPLICATION OF A MULTI-MYCOTOXIN METHOD FOR THE ANALYSES OF WHOLE WHEAT PLANTS 99

Abstract	100
3.1. Introduction	101
3.2. Materials and Methods	103
3.2.1 Chemicals	103
3.2.2 Field description, sample collection, and sample preparation	105
3.2.3 Sample extraction, and clean-up	106
3.2.4 LC-MS/MS Analysis	107
3.2.5 Method optimization parameter	110
3.2.6 Method validation parameter	110
3.3. Results and Discussion	111
3.3.1 Optimization of the extraction and clean-up procedure	111
3.3.2 Validation of the optimized method	114
3.3.3 Method application	118
References (chapter 3)	121

CHAPTER 4: EXPERIMENTALLY DETERMINED SOIL ORGANIC MATTER-WATER SORPTION COEFFICIENTS FOR DIFFERENT CLASSES OF NATURAL TOXINS AND COMPARISON WITH ESTIMATED NUMBERS 127

Abstract	128
4.1 Introduction	129
4.2 Materials and Methods	132
4.2.1 Sorbents and solutes	132
4.2.2 Sorption experiment set-up	132
4.2.3 Determination of sorption coefficients	133
4.2.4 Predictive models	134
4.3 Results and discussion	135
4.3.1 Deriving K_{OC} values for natural toxins using the dynamic HPLC-column method	135
4.3.2 Measured NOM-sorption affinity of natural toxins	136
4.3.3 Measured NOM-sorption affinity of ionized mycotoxins	139

4.3.4 K_{oc} predictions based on K_{ow} as single descriptive parameter	139
4.3.5 K_{oc} predictions based on fragment contribution values	141
4.3.6 K_{oc} predictions based on multiple physic-chemical descriptors	141
4.3.8 K_{oc} predictions based on NOM models with quantum-chemical statistical thermodynamics	144
4.3.9 Evaluation of predictive tools and recommendations for future K_{oc} determination/estimation	145
References (chapter 4)	146
Supporting Information	150
 CHAPTER 5: MYCOTOXINS IN THE ENVIRONMENT: I. PRODUCTION AND EMISSION FROM AN AGRICULTURAL TEST FIELD	175
Abstract	176
5.1 Introduction	177
5.2 Materials and Methods	179
5.2.1 Field site description, instrumentation, and cultivation	179
5.2.2. Field sampling, sampling preparation and extraction	181
5.2.3. Analysis and data presentation	182
5.3 Results and discussion	183
5.3.1 Mycotoxins in whole wheat plants	183
5.3.2 Mycotoxins in drainage water samples	189
5.3.3 Environmental and ecotoxicological relevance	193
References (chapter 5)	194
Supporting Information	199
 CHAPTER 6: MYCOTOXINS IN THE ENVIRONMENT: II. OCCURRENCE AND ORIGIN IN SWISS RIVER WATERS	212
Abstract	213
6.1 Introduction	214
6.2 Materials and Methods	216
6.2.1 WWTP samples	216
6.2.2 River water samples	216
6.2.3 Analyses and data interpretation	218
6.3 Results and Discussion	219
6.3.1 Mycotoxin concentrations and loads in WWTP effluents	221

6.3.2 Mycotoxin concentrations in AWEL and NADUF rivers	222
6.3.3 Mycotoxin loads in AWEL and NADUF rivers	224
6.3.4 Seasonal load fractions of mycotoxins	226
6.3.5 Estimated contributions from the presumed main sources	227
6.3.6 Ecotoxicological relevance	230
References (chapter 6)	231
Supporting information	235
 CHAPTER 7: CONCLUSIONS AND OUTLOOK	260
7.1 Conclusions	261
7.2 Outlook	264
References (chapter 7)	266
 DANKSAGUNG	269
CURRICULUM VITAE	273
