

Table of Content

List of Tables and Figures.....	1
Abstract.....	3
Zusammenfassung.....	5
Acknowledgements	6
1. Introduction and Aims	8
2. Resources in the context of successful aging	10
3. Cognitive and emotional disorders in old age: Key concepts.....	12
3.1. Dementia	12
3.2. Mild Cognitive Impairment (MCI)	14
3.3. Adjustment disorder (AJD).....	14
3.4. Depression	16
4. Social resources in old age – the need to belong	16
4.1. Social resources and cognitive functioning	19
4.2. Social resources and emotional health in old age	20
5. The importance of motivation.....	21
5.1. The model of action phases – linking motivation to behaviour	22
<i>Predecisional Phase</i>	24
<i>Preactional Phase</i>	24
<i>Actional Phase</i>	24
<i>Postactional Phase</i>	24
5.2. Defining motivational variables.....	25
<i>Decision Regulation</i>	25
<i>Activation Regulation</i>	25
<i>Motivation Regulation</i>	26
<i>Self-efficacy</i>	26
<i>Motivational Abilities in the Occupational Context</i>	26
Goal Orientation	27
Action Planning	27
<i>Neural Correlates of Motivational Resources and Processes</i>	28
5.3. The impact of motivational resources on cognitive and emotional health in old age	29
<i>Cognitive reserve</i>	29
<i>Motivational reserve</i>	30

5.4. Motivational resources as mediators in the social resources – health - relationship	32
6. Findings of the PhD thesis studies	33
6.1. Paper 1: The Impact of Social and Interpersonal Resources on Adjustment Disorder Symptoms in Older Age. Motivational Variables as Mediators?	34
6.2. Paper 2: Motivation-Related Occupational Abilities and Their Interaction with Social Network Variables as Predictors of Risk of Dementia	36
6.3. Paper 3: Social Network and Cognitive Functioning in Old Age: Self-efficacy as a Mediator?... ..	38
6.4. Paper 4: The Impact of Motivational and Social Variables on Depression in Individuals with and without Cognitive Impairment	41
7. Discussion	43
<i>Major results</i>	43
<i>Underlying mechanisms linking social support and emotional health outcomes</i>	44
<i>Underlying mechanisms linking social network size and cognitive functioning</i>	46
<i>Differential impact of social resources on health outcomes</i>	47
<i>Underlying mechanisms linking motivational resources to cognitive functioning and emotional health</i>	48
<i>Reconsidering causality</i>	50
<i>Limits of motivational and social resources</i>	52
Conceptual limitations	53
<i>Conclusion</i>	54
8. Clinical implications	54
<i>Social support interventions</i>	55
<i>Enhancing motivational resources</i>	56
<i>Decision Regulation and Goal Orientation</i>	57
<i>Action Planning</i>	57
<i>Activation Regulation</i>	58
<i>Motivation Regulation</i>	58
<i>Self-efficacy</i>	59
9. Outlook	59
10. References	62
11. Paper 1: The Impact of Social and Interpersonal Resources on Adjustment Disorder Symptoms in Older Age: Motivational Variables as Mediators?	90
Abstract	90
11.1. Introduction	92
11.2. Method	100
11.3. Results	110

11.4.	Discussion	120
11.5.	References	126
12.	Paper 2: Midlife Motivational Abilities and Their Interaction with Social Network Variables as Predictors of Risk of Dementia	134
	Abstract.....	134
12.1.	<i>Introduction</i>	136
12.2.	Methods.....	138
12.3.	Results.....	144
11.4.	Discussion	148
11.5.	Funding and Acknowledgments.....	153
11.6.	References	154
13.	Paper 3: Social network and cognitive functioning in old age: Self-efficacy as a mediator?	162
	Abstract.....	162
12.1.	Introduction	162
12.2.	Method	165
12.3.	Results.....	172
12.4.	Discussion	180
13.1.	Acknowledgement and Funding	186
13.2.	References	187
14.	Paper 4: The impact of motivational and social variables on depression in individuals with and without cognitive impairment	201
	Abstract.....	201
1.1.	Introduction	203
1.2.	Method	206
1.3.	Results.....	215
1.4.	Discussion	224
1.5.	Acknowledgements	229
1.6.	References	230
15.	Curriculum Vitae	241
