I. Summary	2
II. Introduction (Review)	
Oevermann A, Zurbriggen A, Vandeveld M. Rhombencephalitis Caused by <i>Listeria monocytogenes</i> in Humans and Ruminants: A Zoonosis on the Rise? Interdiscip Perspect Infect Dis. 2010;2010:632513.	7
III. Peer-reviewed scientific manuscripts	
Oevermann A, Botteron C, Seuberlich T, Nicolier A, Friess M, Doherr MG, Heim D, Hilbe M, Zimmer K, Zurbriggen A, Vandeveld M. Neuropathological survey reveals high prevalence of encephalitic listeriosis in small ruminants. Vet Microbiol. 2008;130(3-4):320-9.	30
Oevermann A, Di Palma S, Doherr MG, Abril C, Zurbriggen A, Vandeveld M. Neuropathogenesis of naturally occurring encephalitis caused by <i>Listeria monocytogenes</i> in ruminants. Brain Pathol. 2010; 20(2):378-90.	40
Raith K, Müntener T, Vandeveld M, Oevermann A. Encephalomyelitis resembling human and ruminant rhombencephalitis caused by <i>Listeria monocytogenes</i> in a Feline Leukemia Virus-infected cat. J Vet Intern Med. 2010;24(4):983-5.	53
Madarame H, Seuberlich T, Abril C, Zurbriggen A, Vandeveld M, Oevermann A. The distribution of E-cadherin expression in listeric rhombencephalitis of ruminants indicates its involvement in <i>Listeria monocytogenes</i> neuroinvasion. Neuropathol Appl Neurobiol. 2011;37(7):753-67.	56
Balandyté L, Brodard I, Frey J, Oevermann A⁺, Abril C⁺ (* equal contribution). Rhombencephalitis-associated <i>Listeria monocytogenes</i> alleles linked to a Multilocus Variable-Number Tandem-Repeat Analysis complex. Appl Environ Microbiol. 2011;77(23):8325-35.	71
Guldimann C, Lejeune B, Hofer S, Leib SL, Frey Joachim, Zurbriggen A, Seuberlich T⁺, Oevermann A⁺ (* equal contribution). Ruminant organotypic brain slice cultures as a model for the investigation of CNS-listeriosis. Accepted in Int J Exp Pathol.	82
Di Palma S, Brunetti B, Doherr M, Forster U, Hilbe M, Zurbriggen A, Vandeveld M, Oevermann A. Comparative spatiotemporal analysis of the intrathecal immune response in natural listeric rhombencephalitis of cattle and small ruminants. Submitted to Comp Immunol Microb.	111
