0. Preface, Program, List of Participants, Introduction	1
1. Anode Raw Materials: Trends and Benchmark Figures	
Anode Raw Materials: Requirements and Bottlenecks	
Raymond Perruchoud (R&D Carbon Ltd)	17
Tailoring Coke Properties to Customers Needs	
Les Edwards (RainCII Carbon LLC)	29
How to Optimize with Low QI Pitch	
Robert Wombles (Koppers Inc)	47
High Quality Butts: the Smelters's Asset	
Tony Hudson (Kempe Engineering)	65
2. Paste Plant, Bake Furnace and Rodding	
Concept of Paste Plant: Today and Tomorrow	
Manfred Beilstein (Outotec GmbH)	83
State of the Art Anode Baking	
Frank Goede (Riedhammer GmbH)	101
Fume Treatment of Paste Plant and Bake Furnace	
Jörg Papak (CTP GmbH)	115
State of the Art Anode Rodding	
Tony Hudson (Kempe Engineering)	129
3. Anode Performance and Process Optimization	
Optimization Methodology: Audit, DPO and FPO	
Markus Meier (R&D Carbon Ltd)	147
Anode Performance and Impact on Smelter Cost	
Markus Meier (R&D Carbon Ltd)	165

1st Middle East Carbon Course in Dubai, 27 - 29 April 2010

Hosted by DUBAL and Organized by R&D Carbon Ltd.

4. Pot Performance

Anode Problems: Case Studies

Markus Meier (R&D Carbon Ltd) 183

Coping with Potroom Demand: Trend and Objectives in the Smelter Industry

Michel Reverdy (DUBAL) 195

DX Pot Technology Powers Green Field Expansion

Ali H.A.M. Zarouni (DUBAL) 211

Sourcing Anodes Globally as a Production Option

Michael Wrotniak (Aminco Resources LLC) 225
