<b>List of acronyms</b>	xxi

## 1 Introduction

1.1 Motivation. . . . .	1
1.2 Background. . . . .	2
1.2.1 Modern climate of Europe. . . . .	4
1.2.2 The climate of the Holocene . . . . .	5
1.2.3 Data-model comparisons. . . . .	8
1.3 Methods and approach . . . . .	9
1.4 Main findings . . . . .	10
1.5 Conclusions and implications. . . . .	11
1.6 Bibliography . . . . .	14

## 2 The influence of atmospheric circulation on the mid-Holocene climate of

<b>Europe: a data-model comparison. . . . .</b>	<b>23</b>
2.1 Introduction. . . . .	24
2.2 Methods. . . . .	25
2.3 Results. . . . .	28
2.3.1 Summer . . . . .	28

2.3.2 Winter	29
2.4 Discussion	30
2.4.1 Summer	30
2.4.2 Winter	31
2.5 The role of atmospheric circulation on the MH climate of Europe	32
2.6 Conclusions	33
2.7 Bibliography	35

<b>3 The climate of Europe during the Holocene: a gridded pollen-based reconstruction and its multi-proxy evaluation</b>	<b>41</b>
3.1 Introduction	42
3.2 Methods	44
3.2.1 Modern and fossil pollen dataset	44
3.2.2 Pollen climate reconstruction	46
3.2.2.1 Gridding procedure and uncertainties	47
3.2.2.2 Isostatic correction and sea level changes	49
3.3 Results	51
3.3.1 Summer temperatures	51
3.3.2 Winter temperatures	54
3.3.3 Summer precipitation	56
3.3.4 Winter precipitation	58
3.3.5 Other climate parameters	60
3.4 Discussion and multi-proxy evaluation	60
3.4.1 Discussion of uncertainties	60
3.4.2 Comparison with previous large-scale climate reconstructions	64
3.4.3 Evaluation against independent climate reconstructions	65
3.5 Conclusions	71
3.6 Supplementary figures	73
3.7 Bibliography	89

<b>4 How well do models simulate the Holocene climate of Europe? An evaluation based on simple indices of seasonality, ocean-land contrast and latitudinal temperature gradient</b> .....	99
4.1 Introduction .....	100
4.2 Methods .....	101
4.3 Results .....	103
4.3.1 Seasonality .....	103
4.3.2 Latitudinal Temperature Gradient (LTG) .....	106
4.3.3 Ocean-Land Contrast (OLC) .....	108
4.4 Discussions .....	110
4.4.1 Seasonality .....	110
4.4.2 Latitudinal Temperature Gradient (LTG) .....	111
4.4.3 Ocean-Land Contrast (OLC) .....	113
4.6 Conclusions .....	114
4.7 Bibliography .....	116
 <b>Curriculum Vitae</b> .....	 121
