

Table of Contents

List of Figures	7
List of Tables	10
Summary	13
Zusammenfassung	15
I. Introduction	17
I 1. Near-Infrared Spectroscopy.....	18
I 2. Sleep.....	28
I 3. Aims.....	39
I 4. Structure of the Thesis.....	41
II. OxyPrem – A novel sensor to measure oxygenation	43
II 1. Concept and Aims.....	44
II 2. OxyPrem.....	47
II 3. In-Vivo Validation of OxyPrem in Adults.....	59
II 4. Assumptions on the Tissue Oxygen Saturation.....	71
II 5. Effect of Movement Artefacts on NIRS Algorithms.....	77
II 6. Acceleration Based Movement Artefact Correction.....	97
II 7. Comparison of Blue and Black OxyPrem Sensor.....	121
II 8. Summary of Discussions.....	131
II 9. Conclusions.....	134
II 10. Outlook.....	135
III. Measuring sleep with near-infrared spectroscopy	137
III 1. Study Concept, Set-up and Aims.....	138
III 2. Brain StO ₂ Increased during the Night.....	145
III 3. Haemodynamic Changes at Sleep Transitions.....	171
III 4. Effect of Working Memory Training.....	181
III 5. Summary of Discussions.....	187
III 6. Conclusions.....	191
III 7. Outlook.....	192
IV. Conclusions and Outlook	193
IV 1. Summary and Conclusions.....	194
IV 2. Outlook.....	196
V. Appendix	197
V 1. Appendix A: Simplified Equations.....	198
V 2. Appendix B: Comparison of Theories.....	202
V 3. Appendix C: Error propagation.....	205
V 4. Appendix D: Sleep Deprivation Protocol.....	210
V 5. Appendix E: Relation slope to pre/post StO ₂	215
V 6. Appendix F: Brodmann areas and 10/20 system.....	216
