	<b>Summary.....</b>	<b>9</b>
	<b>Zusammenfassung .....</b>	<b>10</b>
	<b>Résumé .....</b>	<b>11</b>
<b>1</b>	<b>Introduction .....</b>	<b>12</b>
1.1	Motivation and context .....	12
1.2	Objectives.....	15
1.3	Methodology.....	15
1.4	Report Organization .....	16
1.5	References .....	19
<b>2</b>	<b>Investigated Adhesives .....</b>	<b>21</b>
2.1	Overview .....	21
2.1.1	Sikadur-30.....	21
2.1.2	Sikadur-330.....	22
2.1.3	Sikaforce-7851 .....	23
2.1.4	Adesilex PG1.....	24
2.1.5	VM-K 300 .....	24
2.2	References.....	25
<b>3</b>	<b>Physical characterization at low temperatures.....</b>	<b>26</b>
3.1	Overview .....	26
3.1.1	Curing mechanism .....	26
3.1.2	Differential scanning calorimetry (DSC).....	27
3.2	Experimental investigation .....	28
3.2.1	Experimental set-up .....	28
3.2.2	Experimental Program .....	28
3.3	Cure kinetics.....	29
3.3.1	Kinetic analysis .....	29
3.3.2	Kinetic modeling.....	32
3.4	Glass transition temperature .....	37
3.4.1	Effect of low-temperature curing .....	37
3.4.2	$T_g - \alpha$ relationship.....	38
3.5	New DSC-based method for establishing $T_g - \alpha$ relationship .....	40
3.5.1	Motivation .....	40
3.5.2	New experimental method .....	41
3.5.3	Experimental set-up .....	42
3.5.4	Experimental procedure .....	43
3.5.5	Experimental results and discussion.....	43
3.6	Conclusions.....	47
3.7	References.....	48
<b>4</b>	<b>Development of mechanical properties.....</b>	<b>50</b>
4.1.	Overview .....	50
4.2	Experimental investigation .....	51
4.2.1	Curing procedures.....	51
4.2.2	Investigation of physical properties.....	52
4.2.3	Investigation of mechanical properties.....	52
4.3	Experimental results and discussion.....	53
4.3.1	Physical properties.....	53
4.3.2	Mechanical properties .....	54
4.4	Relationship between physical and mechanical properties .....	58
4.5	Modeling and discussion.....	60
4.6	Conclusions.....	63
4.7	References .....	64

<b>5</b>	<b>Thermomechanical recovery .....</b>	<b>65</b>
5.1	Overview .....	65
5.2	Thermophysical and mechanical background .....	65
5.3	Experimental investigation .....	67
5.3.1	Thermophysical experiments .....	67
5.3.2	Thermomechanical experiments .....	68
5.4	Experimental results and discussion.....	70
5.4.1	Thermophysical properties.....	70
5.4.2	Thermomechanical properties .....	71
5.5	Modeling of experimental results .....	76
5.5.1	Glass transition temperature .....	76
5.5.2	Thermomechanical properties .....	76
5.6	Conclusions.....	76
5.7	References.....	77
<b>6</b>	<b>Long-term performance .....</b>	<b>79</b>
6.1	Overview .....	79
6.2	Experimental investigation .....	79
6.2.1	Experimental set-up and procedure.....	79
6.2.2	Experimental program.....	79
6.3	Experimental results and discussion.....	80
6.3.1	Physical behavior .....	80
6.3.2	Mechanical behavior .....	83
6.4	Modeling.....	85
6.4.1	Existing models for concrete curing .....	85
6.4.2	New model for cold-curing adhesives .....	86
6.4.3	Modeling results .....	87
6.5	Conclusions.....	88
6.6	References.....	88
<b>7</b>	<b>Application in bridge construction .....</b>	<b>89</b>
7.1	Overview .....	89
7.2	Potential bonded joints.....	89
7.3	Study parameters.....	90
7.3.1	Exposure conditions.....	90
7.3.2	Temperature-dependent property development .....	91
7.3.3	Selection of temperature scenarios and effect on mechanical properties .....	92
7.3.4	Partial safety factors and design values .....	94
7.4	Case studies .....	94
7.4.1	Girder-deck joints.....	94
7.4.2	Shear joints in precast-prestressed segmental bridges.....	98
7.4.3	Bonded steel rebars in concrete .....	101
7.5	Conclusions.....	103
7.6	References.....	103
<b>8</b>	<b>Conclusions and future work .....</b>	<b>106</b>
8.1	Summary of conclusions.....	106
8.1.1	Physical characterization of adhesives at low temperatures .....	106
8.1.2	Development of mechanical properties at early age.....	106
8.1.3	Time-temperature dependence during thermomechanical recovery .....	106
8.1.4	Long-term performance of structural adhesives .....	107
8.1.5	Application in bridge construction .....	107
8.1.6	Adhesive properties required for application of research results.....	107
8.2	Future work .....	108
8.2.1	Long-term durability .....	108
8.2.2	Characterization of ductile adhesives .....	108
8.2.3	Investigation of joint performance .....	108
8.2.4	Establishing design codes .....	109
8.3	References.....	109

<b>Nomenclature .....</b>	<b>110</b>
<b>Abbreviations .....</b>	<b>110</b>
<b>Latin upper case.....</b>	<b>110</b>
<b>Latin lower case .....</b>	<b>111</b>
<b>Greek lower case.....</b>	<b>112</b>
<b>Projektabschluss</b>	<b>114</b>
<b>Verzeichnis der Berichte der Forschung im Strassenwesen</b>	<b>117</b>
