

Inhalt

Editorial

Prof. Dr. Karin Niedermann, Prof. Dr. Amir Tal 5

Masterarbeiten (Abstracts)

German translation, cross-cultural adaptation and validation of the STarT back screening questionnaire
Bernhard Aebischer 6

Gait deviations and compensations in patients with coxa antetorta
Marina Bruderer-Hofstetter 7

Development and validation of an Android®-based measurement tool for the quantification of the Sit-to-Stand movement
Adrien Cerrito 8

Reliability of a Protective Reaction Assessment
Henri André Emery 9

Validity and reliability of the OptoGait system for quantification of gait parameters – and its practicability
Lea Ettlin 10

The expectations of patients with trapeziometacarpal osteoarthritis (TMC OA) and possible determinants of the fulfillment of these expectations
Regula Frouzakis-Bärtschi 11

Validity and reliability of myotonometric assessment of lower limb muscles in chronic stroke patients
Anne Kathryn Fröhlich-Zwahlen 12

Test-retest reliability of postural control tasks in healthy subjects and patients with non-specific low back pain
Judith Graser 13

Reliability of stiffness- and EMG- measurements during cervical traction applications in healthy subjects - a pilot study
Jaques Habers 14

Masterarbeiten (Abstracts)

Assessing safety, feasibility and acute effects of the cervical stretcher on distraction of the cervical spine in healthy subjects - a pilot study <u>Helga Habers-longsmä</u>	15
Mechanics of the femoropatellar joint: How are cartilage stiffness and subchondral bone strength associated? <u>Mirjam Andrea Hafner</u>	16
Sensorimotor tests such as movement control and laterality judgment accuracy in persons with recurrent neck pain and controls. A case-control study. <u>Simone Heynen</u>	17
Effect of stochastic resonance whole body vibration on strength in the frail elderly - a pilot study <u>Jessica Kessler</u>	18
What about neurodynamics? Relationship between the straight leg raise, muscle strength and motor performance in children with cerebral palsy <u>Petra Marsico</u>	19
Reliability and validity of pelvic floor muscle displacement measurements during voluntary contractions and reflex activity <u>Helene Moser</u>	20
Content validity of the Work Rehabilitation Questionnaire-Self-Report version WORQ-SELF in a subgroup of spinal cord injury patients <u>Ruth Portmann Bergamaschi</u>	21
The effect of arm position and bed adjustment on comfort and pressure under the shoulders in people with tetraplegia <u>Anja Raab</u>	22

Masterarbeiten (Abstracts)

Association between peripheral muscle strength and daily physical activity in patients with chronic obstructive pulmonary disease. <u>Anne-Kathrin Rausch Osthoff</u>	23
Effects of passive hydrotherapy WATSU® (WaterShiatsu) in the third trimester of pregnancy: Results of a cohort control pilot trial <u>Agnes M. Schitter</u>	24
Development and validation of the Protective Reaction Assessment for people over seventy <u>Fadrina Simioni-Isler</u>	25
<i>The measurement of muscle activity and trunk sway in healthy adults during walking with and without a rollator</i> <u>Zorica Suica</u>	26
A standardized motor imagery introduction program (MIIP) for patients with sensorimotor impairments: development and evaluation <u>Christine Wondrusch</u>	27
Die Diplomandinnen und Diplomanden	28
