<b>Abstract</b> .....	<b>i</b>
<b>Résumé</b> .....	<b>iii</b>
<b>Riassunto</b> .....	<b>v</b>
<b>Acknowledgments</b> .....	<b>vii</b>
<b>Contents</b> .....	<b>xi</b>
<b>List of figures</b> .....	<b>xv</b>
<b>List of tables</b> .....	<b>xxv</b>
<b>Notation</b> .....	<b>xxix</b>
<b>1. Introduction</b> .....	<b>1</b>
1.1 Foreword.....	2
1.2 Context.....	3
1.3 Objectives and methods.....	5
1.4 Structure of the report.....	6
<b>2. Literature review</b> .....	<b>9</b>
2.1 Mountain rivers.....	10
2.2 Hydraulics of mountain rivers .....	13
2.2.1 Energy dissipation.....	13
2.2.2 Flow resistance.....	14
2.2.3 Bed shear stress .....	18
2.2.4 Stream power .....	29
2.3 Sediment transport in mountain rivers.....	30
2.3.1 Characteristics of bedload.....	30
2.3.2 Bedload transport formulae.....	31
2.3.3 Critical bed shear stress.....	32
2.3.4 Critical stream power .....	36

2.3.5	Critical discharge .....	37
2.3.6	Bedload formulae considering boulders .....	38
2.3.7	Bedload fluctuations .....	43
2.4	Summary .....	46
<b>3.</b>	<b>Experimental methods.....</b>	<b>47</b>
3.1	Experimental setup .....	48
3.1.1	Global description .....	48
3.1.2	Mobile sediments .....	51
3.1.3	Sediment supply .....	53
3.1.4	Boulders .....	55
3.1.5	Measurements .....	58
3.2	Tests parameters and procedure .....	62
3.2.1	Experimental procedure .....	62
3.2.2	General test parameters .....	64
<b>4.</b>	<b>Bulk velocity measurements by video analysis of dye tracer in a macro-rough channel.....</b>	<b>69</b>
4.1	Introduction .....	71
4.2	Review of main velocity measurement techniques .....	72
4.3	Experimental details .....	79
4.4	Dye tracking velocity measurement technique .....	82
4.4.1	Video camera setup .....	82
4.4.2	Video analysis and velocity estimation .....	83
4.5	Results and discussion .....	86
4.6	Conclusions .....	90
<b>5.</b>	<b>Bedload fluctuations in a steep channel.....</b>	<b>93</b>

---

5.1	Introduction .....	95
5.2	Research methods .....	98
5.3	Results .....	101
5.3.1	Time series analysis .....	101
5.3.2	Correlational analysis.....	104
5.3.3	Phase analysis.....	106
5.3.4	Mechanisms of bedload fluctuations.....	108
5.3.5	Sediment transport formulae .....	111
5.4	Conclusions .....	116
<b>6.</b>	<b>Period and amplitude of bedload pulses in a macro-rough channel .....</b>	<b>121</b>
6.1	Introduction .....	123
6.2	Research methods .....	126
6.3	Results and discussion .....	131
6.3.1	Data time series .....	131
6.3.2	Definition of amplitude and period of bedload pulses .....	133
6.3.3	Analysis of amplitude and period of bedload pulses .....	135
6.4	Conclusions .....	140
<b>7.</b>	<b>Sediment transport in steep channels with boulders .....</b>	<b>143</b>
7.1	Introduction .....	145
7.2	Research methods .....	147
7.2.1	Experimental setup and procedure .....	147
7.2.2	Experimental parameters.....	151
7.3	Results and discussion .....	153
7.3.1	Bed morphology.....	153
7.3.2	Sediment transport capacity and beginning of sediment motion .....	155

7.3.3 Development of a sediment transport equation considering boulder influence.....	163
7.3.4 Comparison with existing sediment transport formulae .....	169
7.4 Conclusions .....	171
<b>8. Further observations on morphology and sediment transport .....</b>	<b>173</b>
8.1 Morphological observations.....	174
8.2 Experiences with increasing discharge .....	178
8.3 Effect of liquid discharge .....	182
8.4 Surface and transported grain sizes at varying bedload transport stages .....	184
<b>9. Conclusions and further developments.....</b>	<b>187</b>
9.1 Conclusions .....	188
9.2 Future work .....	190
<b>References .....</b>	<b>193</b>
<b>Appendixes.....</b>	<b>205</b>
A. Boulder configurations.....	207
B. Experiments.....	211
<b>Curriculum Vitae .....</b>	<b>291</b>
