

Table of contents

Abbreviations	5
Summary	5
Zusammenfassung.....	7
1. Introduction.....	11
1.1 Carbonate rocks and karst: Definition and importance	13
1.2 The karstification process.....	14
1.3 Karst water	16
1.4 Caves.....	18
1.5 Microorganisms in caves	18
1.5.1 <i>Microbes in sulfidic caves</i>	19
1.5.2 <i>Microbes and metal deposits</i>	20
1.5.3 <i>Microbes and precipitation of carbonates</i>	21
1.6 Karst research in Switzerland	23
1.7 Study site	25
1.8 Aims of the study.....	26
2. Microbial diversity in subsurface karst pools (vadose vs. epiphreatic).....	27
Manuscript I:.....	29
Manuscript II:.....	45
3. Transformation of microbial and chemical parameters during stagnation periods in epiphreatic pools	53
Manuscript III	55
Manuscript IV.....	87
4. General discussion.....	125
4.1 Hydrology and water chemistry determining microbiology in karst pools	126
4.2 Reproducible trends observed during water residence in epiphreatic pools	127
4.3 Community structure	128
4.4 Core microbial community in karst water	128
4.5 Abundant but not persistent bacterial groups in epiphreatic pools	130
4.6 Outlook.....	130
5. References.....	132
Curriculum Vitae.....	140
Acknowledgments	143
