

# CONTENTS

## INTRODUCTION

Purpose of this Factbook.....	1	Kenya.....	48
Human Development.....	2	Guest Perspective: Kenya: Increasing Food Security with Low-Impact Irrigation.....	
Ecological Footprint.....	4	Madagascar.....	52
Biocapacity.....	6	Guest Perspective: The Impact of Slash and Burn Cultivation in Madagascar.....	
Water Availability.....	8	Malawi.....	56
Soil Fertility.....	9	Guest Perspective: Fisheries, Livelihoods and Environmental Degradation in Malawi.....	
Investing for the Future.....	10	Mali.....	60
Figures and Maps:		Guest Perspective: Climate Change and Resource Depletion in a Fragile Ecosystem.....	
Figure 1.1. Humanity's Ecological Footprint, 1961-2005.....	2	Mozambique.....	64
Figure 1.2. Human development and Ecological Footprint, 2005.....	3	Guest Perspective: The Human Impact of Mangrove Depletion.....	
Figure 1.3. Ecological Footprint per person, by country, 2005.....	4	Rwanda.....	68
Figure 1.4. Footprint and biocapacity factors that determine global overshoot.....	5	Guest Perspective: Changes in Land Cover and Population in Rwanda.....	
Figure 1.5. Biocapacity per person, by country, 2005.....	6	Sierra Leone.....	72
Figure 1.6. Renewable water resources per person, 2000.....	8	Guest Perspective: Energy, Deforestation and Climate Change.....	
Figure 1.7. Maize yields, by region, 1961-2005.....	9	Somalia.....	76
Figure 1.8. Lifespan of people, assets and infrastructure.....	10	Guest Perspective: Charcoal Production from Acacia in Somalia.....	
Map 1.1. Biocapacity per person, by country (1961 and 2005).....	7	South Africa.....	80
Map 1.2. Ecological Creditor and Debtorcountries (1961 and 2005).....	10	Guest Perspective: Energy Use and its Impact on Development.....	
<b>AFRICAN CONTINENT</b>		Sudan.....	84
Introduction.....	12	Guest Perspective: Energy: A Critical Component in the Development of Sudan.....	
Figures and Tables:		Tanzania.....	88
Figure 2.1. Total Ecological Footprint and biocapacity, 1961-2005.....	12	Guest Perspective: Agriculture: A Core Component of Tanzania's Economy.....	
Figure 2.2. Ecological Footprint per person, 1961-2005.....	13	Togo.....	92
Figure 2.3. Biocapacity per person, 1961-2004.....	13	Guest Perspective: Wood Exploitation as a Contributing Factor to Deforestation in Togo.....	
Figure 2.4. Ecological Footprint and population by African nation, 2005.....	14	Tunisia.....	96
Figure 2.5. Population, 1961-2005.....	15	Guest Perspective: Soil and Water Conservation in Tunisia: Assessment and Perspectives.....	
Table 2.1. Ecological Footprint, economy and human development, 2005.....	12	Uganda.....	100
Table 2.2. Ecological Footprint, 1961-2005.....	13	Guest Perspective: Freshwater Resources in Uganda; the Lifeblood of Communities.....	
Table 2.3. Biocapacity, 1961-2005.....	13	Zambia.....	104
<b>COUNTRY INFORMATION:</b>		Guest Perspective: Zambia: Economic Struggles amid Natural Riches.....	
Algeria.....	16	Zimbabwe.....	108
Guest Perspective: Urban Growth in Algeria Versus Ecological Carrying Capacity.....		Guest Perspective: Water Scarcity in Zimbabwe.....	
Burkina Faso.....	20	Figures and Tables:	
Guest Perspective: Burkina Faso: Protecting the Environment by Profiting from Garbage.....		<i>EACH COUNTRY CHAPTER INCLUDES THE FOLLOWING FIGURES AND TABLES:</i>	
Burundi.....	24	Figure x.1. Total Ecological Footprint and biocapacity, 1961-2005.....	
Guest Perspective: The Status of Inland Fisheries in Burundi.....		Figure x.2. Population, 1961-2005.....	
Cameroon.....	28	Figure x.3. Birth and death rate, 1960-2005.....	
Guest Perspective: Cameroon: Exploitation Threatens a Key Resource.....		Figure x.4. Ecological Footprint per person, 1961-2005.....	
Côte d'Ivoire.....	32	Figure x.5. Biocapacity per person, 1961-2005.....	
Guest Perspective: Crop Production: A Threat to Côte d'Ivoire's Protected Forests.....		Figure x.6. Ecological Footprint, biocapacity and net trade, 1961-2005.....	
Egypt.....	36	Figure x.7. Human Development Index and Ecological Footprint, 2005.....	
Guest Perspective: Irrigation and Agriculture Technology in Egypt.....		Table x.1. Ecological Footprint, Economy and Human Development, 2005.....	
Eritrea.....	40	Table x.2. Ecological Footprint per person, 1961-2005.....	
Guest Perspective: Eritrea: Pasture Land Shortage and its Impact on Pastoralist Livelihoods.....		Table x.3. Biocapacity per person, 1961-2005.....	
Ethiopia.....	44	<b>FREQUENTLY ASKED QUESTIONS.....</b>	<b>112</b>
Guest Perspective: Another Perspective on Ethiopia's Largest Dam: Gilgel Gibe III.....		<b>REFERENCES.....</b>	<b>114</b>
		<b>ACKNOWLEDGEMENTS.....</b>	<b>120</b>
