|---|----|
| <b>1 Introduction</b>                           | 1  |
| 1.1 Scope                                       | 3  |
| 1.2 Contributions                               | 4  |
| 1.3 Student Projects                            | 4  |
| 1.4 Outline                                     | 5  |
| <b>2 Variable Caster Steering</b>               | 7  |
| 2.1 The Steering Geometry                       | 9  |
| 2.1.1 Characterization of the Steering Geometry | 10 |
| 2.1.2 Sign Convention                           | 12 |
| 2.1.3 Kinematics                                | 12 |
| 2.2 Tyre Model                                  | 15 |
| 2.2.1 Longitudinal Forces                       | 15 |
| 2.2.2 Lateral Forces                            | 17 |
| 2.2.3 Interaction with the Steering Geometry    | 23 |
| 2.3 Analysis of a Variable Steering Geometry    | 24 |
| 2.3.1 Self-Centring                             | 24 |
| 2.3.2 Steering Control                          | 27 |
| 2.4 Conservation of Energy                      | 31 |
| 2.4.1 Steering Mechanism                        | 31 |
| 2.4.2 Side-Slip Angle                           | 34 |
| 2.4.3 Linear Analysis                           | 36 |

## Contents

|          |   |           |
|----------|---|-----------|
| 2.4.4    | Nonlinear Analysis . . . . .                                | 41        |
| 2.4.5    | Conclusion . . . . .  | 44        |
| 2.5      | Simulation Results . . . . .                                | 45        |
| 2.6      | Vehicle Experiments . . . . .                               | 53        |
| <b>3</b> | <b>Steering Control of a Semi-Trailer in Reverse Travel</b> | <b>63</b> |
| 3.1      | Modelling . . . . .   | 64        |
| 3.2      | Controller Design . . . . .                                 | 74        |
| 3.2.1    | Steady-State Control . . . . .                              | 75        |
| 3.2.2    | Control during Transients . . . . .                         | 78        |
| 3.2.3    | Integration . . . . .                                       | 79        |
| 3.3      | Simulation Results . . . . .                                | 81        |
| <b>4</b> | <b>Conclusions</b>  | <b>87</b> |
| 4.1      | Steering Mechanism . . . . .                                | 87        |
| 4.2      | Steering Control . . . . .                                  | 89        |
|          | <b>Bibliography</b>   | <b>91</b> |
