

Table of contents

Summary	iii
Zusammenfassung.....	v
Acknowledgements	vii
Table of contents.....	ix
List of figures	xiii
List of tables	xix
1 Introduction	1
2 Evaluation of modelled snow depth and snow water equivalent	7
2.1 Introduction.....	10
2.2 SNOWPACK model	12
2.3 Data and Methods.....	13
2.3.1 Input Data.....	13
2.3.2 Precipitation and calibration	15
2.3.3 Importance of long-wave parameterization	17
2.3.4 Different model setups	18
2.4 Results and discussion.....	19
2.4.1 Simulated and observed snow depth during 2004/2005.....	19
2.4.2 Performance of the simulations over the entire period	23
2.4.2.1 Onset and disappearance at Weissfluhjoch and Davos and the effect of albedo parameterization	23
2.4.2.2 Maximum snow depth and duration at Weissfluhjoch and Davos	24
2.4.2.3 Simulations in the ephemeral snow cover regime at Payerne	25
2.4.2.4 Statistical measures of snow depth and source of errors.....	25
2.4.2.5 Comparison of observed and modelled snow water equivalent at Weissfluhjoch	27
2.5 Conclusions.....	29
3 Snow response to climate change in Switzerland.....	31
3.1 Introduction.....	34
3.2 Data and methods	36

3.2.1	Input data	36
3.2.2	Climate scenarios and Delta Change Method	38
3.3	Results and Discussion.....	41
3.3.1	Reference Period	41
3.3.2	Scenario periods	43
3.3.2.1	Effect of setups	43
3.3.2.2	Effect of scenario periods	46
3.3.2.3	Effect of elevation and region	46
3.3.2.4	SWE changes.....	47
3.3.2.5	Comparison with similar studies	50
3.4	Conclusions.....	50
4	Impact of climate change on snow indices	53
4.1	Introduction	56
4.2	Data and methods	57
4.2.1	Input Data	57
4.2.2	Climate scenarios and Delta Change Method	58
4.2.3	Snow indices	60
4.3	Results	61
4.3.1	Changes in mean winter snow depth	61
4.3.2	Decrease in continuous snow cover	65
4.3.3	Shift in onset and melt date	66
4.3.4	Decrease in snow days	68
4.3.5	Decrease in new snow days.....	70
4.4	Discussion	71
4.5	Conclusions.....	73
5	Conclusions and outlook	75
5.1	Conclusions.....	77
5.2	Outlook.....	80
6	Appendix.....	83
6.1	Daily delta change signals at individual stations	85
6.2	Observed and modelled snow depth in the reference period	91

6.3 Decrease of mean snow depth and SWE at individual stations..... 95

6.4 Decrease of mean winter snow depth at individual stations..... 103

6.5 Decrease of daily mean snow depth 107
