

Table of Contents

- Abstract.....5**
- Acknowledgments.....7**
- Introduction.....8**
 - The Nature of Interruptions in Medicine.....9
 - The Concepts of Distraction and Reflexivity.....12
 - Aim of This Study.....14
- Materials and Methods.....15**
 - Study Design and Participants.....15
 - Ethics.....16
 - Study Setting.....17
 - Materials.....18
 - Clinical Scenario.....19
 - Intervention.....21
 - The Distraction Element.....22
 - The Reflexivity Element.....24
 - Data Collection.....25
 - Data Analysis.....25
 - Patient History.....26
 - Management.....28
 - Statistics.....30
 - Primary Outcome.....30
 - Secondary Outcomes.....30
 - Additional Analyses.....30
 - Analysis and Software.....31
- Results.....32**
 - General Results.....32
 - Primary Outcome.....33
 - Secondary Outcomes: Patient History.....36
 - Dimensions of Pain.....36
 - Vegetative Symptoms.....37
 - Cardiac Risk Factors.....38
 - AMPLE Scheme.....38
 - Secondary Outcomes: Management.....39
 - Critical Management Decisions.....40
 - MONA Scheme.....41
 - Additional Analyses.....43
 - Introduction.....43
 - Diagnosis.....43

Reflexivity Questionnaire.....	45
Theoretical Knowledge vs. Performance in Trial.....	47
Gender-Related Results.....	49
Wrong Diagnoses.....	53
Discussion.....	56
Summary of Findings.....	56
Specific Findings.....	57
Primary Outcome.....	57
Secondary Outcomes.....	57
Reflexivity.....	61
Gender-Related Results.....	64
Wrong Diagnoses.....	65
Comparison to Other Studies.....	67
Studies on Interruptions.....	67
Studies on Reflexivity.....	72
Studies on History-Taking and Provider-Patient Interaction.....	75
Studies on Gender-Related Issues.....	78
Strengths and Weaknesses of our Study.....	80
Strengths.....	80
Weaknesses.....	82
Limitations.....	84
Consequences of our Findings.....	85
Future Research.....	87
Conclusions.....	88
Bibliography.....	90
Appendix.....	98
Patient Checklist and Scripted Answers.....	98
Written Pre-Test for all Participants.....	99
Transcript of Reflexivity Questionnaires.....	100
