

Table of Contents

General introduction	1
Chapter 1	3
Genetically cryptic species in the <i>Enoplognatha ovata</i> group; or mismatch between morphological and genetic species? (Araneae; Theridiidae)	4
Abstract	4
Introduction.....	5
Material & Methods.....	8
Sample collection and molecular techniques.....	8
<i>Wolbachia</i> screening	9
Sequence analyses.....	9
Species delimitation.....	10
Phylogenetic analyses	10
Results.....	11
Genetic diversity	11
CO1 Barcode gap.....	15
Phylogenetic analyses	16
CO1-5' and CO1-3'	16
Nuclear genes.....	18
<i>Wolbachia</i> infections	19
Discussion	21
DNA barcoding	21
Phylogeny of <i>Enoplognatha ovata</i> group	22
<i>Wolbachia</i> screening.....	22
Two species or just one?.....	23
Conclusions.....	25
Acknowledgements	25
Author contributions	26
References.....	27
Chapter 2.....	36

Intragenetic differences in DNA barcoding success in species groups of Pardosinae (Araneae: Lycosidae).....	37
Abstract	37
Introduction.....	37
1) <i>Acantholycosa norvegica</i>	39
2) <i>Pardosa lugubris</i> group	39
3) <i>Pardosa wagleri</i> and <i>Pardosa saturator</i>	40
Material and Methods	41
Sample collection and molecular techniques.....	41
Sequence analyses	42
Barcode gap and phylogenetic analyses	42
Results.....	43
1) <i>Acantholycosa norvegica</i>	45
2) <i>Pardosa lugubris</i> group	46
3) <i>Pardosa wagleri</i> and <i>Pardosa saturator</i>	48
Discussion.....	50
DNA barcoding.....	50
Nuclear genes.....	50
Conclusions.....	51
References.....	52
Chapter 3	56
Morphologically cryptic species in a widely distributed spider? DNA barcoding in <i>Synema globosum</i> (Thomisidae)	57
Abstract	57
Introduction.....	57
Material and Methods	58
Sampling and laboratory procedures	58
Sequence analyses.....	61
Results.....	62
Genetic diversity and phylogenetic analyses	62
Barcode gap	65
Discussion.....	66
References.....	69
Chapter 4.....	71

Combining morphology, molecules, and morphometrics: revising closely related species in the genus <i>Araniella</i> (Araneae: Araneidae).....	72
Abstract.....	72
Introduction.....	73
Material and Methods	75
Sample collection.....	75
Identification	75
Laboratory protocol	76
Molecular data analysis	77
Barcode gap	78
Morphometric analysis.....	78
Results.....	80
Sequences.....	80
Phylogenetic analysis.....	81
Barcode gap	83
Morphometrics of <i>A. cucurbitina</i> and <i>A. opisthographa</i> females	85
Discussion	87
High consistency in the CO1 phylogeny	87
CO1-based species identification.....	88
Geographical sampling and DNA barcoding.....	89
Success and failure of morphometrics	89
Sibling species	90
<i>Araniella displicata</i>	91
Conclusions	91
Acknowledgements.....	92
References.....	93
Chapter 5	100
Barcoding of Swiss spider fauna: overview of current status.....	101
Abstract	101
Introduction.....	101
Methods.....	102
Results.....	104
Discussion	110
References.....	111

Chapter 6	112
Testing DNA barcoding in closely related species	113
Material & Methods	113
(A) <i>Drassodes lapidosus</i> and <i>Drassodes cupreus</i>	115
(B) <i>Caracladus</i> spp.	120
(C) <i>Aculepeira</i> spp.	123
(D) Nesticidae spp.	125
(E) <i>Lycosa. singoriensis</i> sensu lato	127
References.....	130
General discussion	131
References used in general introduction and discussion.....	137
Acknowledgements.....	138
Erklärung.....	139
Curriculum vitae	140
