

Table of Contents

Abbreviations 5

Abstract 7

 Objective 7

 Methods and Design..... 7

 Results 7

 Discussion 8

Introduction..... 9

 Global Burden of Disease 9

 Definition and Classification of Arterial Hypertension..... 9

 Hypertension and Cardiovascular Risk 10

 COPD and Cardiovascular Morbidity and Mortality 12

 The Development of Guidelines and Cardiovascular Risk Stratification 12

 The 2013 ESH/ESC Guidelines for the Diagnosis and Treatment of Arterial Hypertension⁸ 13

 Blood Pressure Control and Blood Pressure Targets..... 14

 Therapeutical Aspects in Hypertension Management..... 15

 Arterial hypertension in the Swiss Population 18

 The Swiss Hypertension Cohort Study 18

 Aim of this Study 19

Methods 20

 Study Population 22

 HccH Database 22

 Blood Pressure Control Definition..... 22

 Definition of Cardiovascular Risk Categories 22

 Statistical Analysis 23

Results 25

 Patient Characteristics..... 25

 Blood Pressure Control..... 26

 Cardiovascular Risk Distribution in the HccH Study 28

 Cardiovascular Events and Associated Risk Factors 30

 Further Parameters Affecting CV Risk 33

 Analysis Using Multiple Imputations 34

Discussion 36

 Blood Pressure Control..... 36

 Cardiovascular Risk Distribution..... 37

 Cardiovascular Events and Associated Risk Factors 37

 Limitations of the study..... 38

 Conclusion 39

References..... 40

Appendix..... 46

 Comparison with Multiple Imputation Calculations 46

Curriculum Vitae..... 48
