List of abbreviations	8
Chapter 1	11
Preamble Chapter 2	15
Chapter 2	16
1.0 Introduction	16
1.1 Childhood Cancer	16
1.2 Survivorship	18
1.3 The challenges of survivorship: late effects.....	19
1.4 Follow-up care	20
1.5 Models of follow-up care (MOC) and preferences for care	22
1.6 Childhood cancer survivorship care in Switzerland	23
1.7 Childhood cancer survivorship care in Australia.....	24
1.8 Barriers and parental involvement in follow-up care	24
1.9 Information provision and information needs.....	26
2.0 Overall Objective and aims of this PhD project	28
2.1 Overall objective.....	28
2.2 Aims of my PhD project	28
3.0 Methods	29
3.1 The Swiss Childhood Cancer Registry	29
3.2 The Swiss Childhood Cancer Survivor Study	29
3.3 The Swiss childhood cancer follow-up study (CCFU).....	30

3.4 The long-term follow-up study Australia/New Zealand	31
3.5 Data analysis	32
Preamble Chapter 3	38
Chapter 3	39
Information needs in parents of long-term childhood cancer survivors	39
Abstract	42
Introduction	43
Methods	45
Results	49
Discussion	51

Preamble Chapter 7	174
Chapter 7	175
1.0 Overall Discussion.....	175
Overview of main findings	175
Discussion and comparison with previous studies.....	177
Limitations and strengths.....	182
2.0 Future research	184
3.0 Implications for clinical practice	186
4.0 Overall Conclusion	187
Appendix	190
I. Related study and project	190
1. Related study.....	190
Educational and vocational goal disruption in adolescent and young adult cancer survivors: A mixed-method study.....	190
2. Related project	212
Fertility after Chemo- and Radiotherapy in Childhood and Adolescence, FeCt – Multicentre offspring study-Switzerland,	212

Figure 1	214
