Chapter 1: Memory of Chirality in Radical Chemistry and Radical Addition/ Translocation/Cyclization Cascades

1.1. Memory of chirality in radical reactions	2
1.1.1 Introduction	2
1.1.2 Biradicals as reactive intermediates in memory of chirality	3
1.1.2.1 Decomposition of diazo compounds	3
1.1.2.2 Decarboxylation	5
1.1.2.3 Memory of chirality in photoinduced cyclizations	7
1.1.2.4 Radical cascade reactions	9
1.1.3 Memory of chirality involving monoradicals as reactive intermediates	10
1.1.3.1 Cycloalkyl radicals	10
1.1.3.2 Aryl radicals	13
1.1.3.3 Acyclic ester and amide-substituted alkyl radicals	15
1.1.3.4 Benzylic radicals	16
1.1.3.5 Allylic radicals	18
1.1.4 Conclusion	19
1.2 Radical translocation/cyclization cascade	
1.2.1 Introduction	19
1.2.2 Vinyl halides as precursor for vinyl radicals	19
1.2.3 Vinyl radicals generated by addition onto alkynes	21
1.2.4 Conclusion	24
1.3 References	25

Chapter 2: Memory of Chirality in Radical Addition/Translocation/Cyclization Cascade

2.1. Background of the project and preliminary results	30
2.2. Results and Discussion	32
2.2.1. Sulfenyl radical mediated RATC on a terminal chiral alkyne	32
2.2.2. Phosphonyl radical mediated RATC on a terminal chiral alkyne	37
2.2.3. Thiophosphonyl mediated RATC	42
2.2.4. Sulfonyl radical mediated RATC on a terminal chiral alkyne	42
2.2.5. Mechanistic studies	43
2.2.6. Attempt to extend the reaction to tosylamides	45
2.3. Conclusion	46
2.4. References	47

2.5. Experimental	49
--------------------------	-----------

Chapter 3: Sulfonyl Radicals: Their Generation and Reactivity

3.1. Introduction	72
3.2. Properties of Sulfonyl Radicals	72
3.3. Generation of Sulfonyl Radicals and their precursors	74
3.3.1. Sulfonyl halides	74
3.3.2. Sulfonyl hydrazides	75
3.3.3. Other methods	75
3.4. Reactivity of Sulfonyl Radicals	76
3.5. Conclusions	81
3.6. References	82

Chapter 4: Sulfonyl Chloride Mediated Radical Addition/Translocation/ Cyclization Cascade

4.1 Background of the project	86
4.2 Results and Discussion	87
4.3 Conclusion	94
4.4 Unpublished Results	94
4.4.1 Reactions involving alkanesulfonyl chloride	94
4.4.2 Reactions involving tosyl bromide	95
4.4.3 Addition of sulfonyl chlorides to terminal alkynes	96
4.5 Outlook	97
4.6 References	98
4.7 Experimental	99

Appendix A: Spectra and chromatograms of chapter 2

Appendix B: Spectra of chapter 4
