<b>Summary .....</b>	<b>4</b>
<b>Résumé.....</b>	<b>6</b>
<b>List of Figures .....</b>	<b>11</b>
<b>List of Tables.....</b>	<b>19</b>
<b>List of Equations.....</b>	<b>21</b>
<b>Chapter 1 General introduction.....</b>	<b>21</b>
1.1 Forest ecosystems under climate change .....	22
1.1.1 Situation in Switzerland .....	22
1.2 Tree responses to climate change .....	24
1.2.1 Tree growth and leaf phenology .....	28
1.2.2 Ecophysiology .....	29
1.2.3 Anatomy and morphology of tree foliage.....	31
1.3 Assessing future climate change impacts in the present .....	32
1.4 Thesis overview .....	35
<b>Chapter 2 Tree growth responses .....</b>	<b>41</b>
2.1 Models estimating the biomass of beech and spruce saplings.....	43
2.2 Vapor-pressure deficit and extreme climatic variables limit tree growth.....	46
2.2.1 Abstract.....	46
2.2.2 Introduction .....	47
2.2.3 Materials and methods.....	50
2.2.4 Results .....	58
2.2.5 Discussion.....	66
2.2.6 Acknowledgements .....	71
<b>Chapter 3 Foliage plasticity .....</b>	<b>73</b>
3.1 Abstract.....	74
3.2 Introduction.....	75
3.3 Materials and methods .....	78
3.3.1 Study sites and altitudinal gradient .....	78
3.3.2 Experimental Design .....	80
3.3.3 Leaves and needles sampling and morpho-anatomical observations.....	81
3.3.4 Growth estimation .....	82
3.3.5 Statistical analysis .....	83
3.4 Results.....	85
3.4.1 Overall climatic conditions at each site during the leaf development.....	85
3.4.2 Variations of leaf traits under changing environmental conditions .....	86
3.4.3 Multivariate analysis of leaf trait responses .....	91
3.4.4 Phenotypic plasticity index .....	95
3.5 Discussion.....	95
3.5.1 Tolerance range to warmer and drier conditions.....	95

3.5.2 Beech shows higher leaf plasticity than spruce.....	97
3.6 Acknowledgements.....	100
<b>Chapter 4 Integrating tree responses in a multi-level assessment .....</b>	<b>101</b>
4.1 Abstract.....	102
4.2 Introduction.....	103
4.3 Materials and methods .....	105
4.3.1 Experiment design and set up .....	105
4.3.2 Growth rate.....	106
4.3.3 Phenology.....	107
4.3.4 Ecophysiology.....	108
4.3.5 Leaf macro- and micro-morphology .....	109
4.3.6 Statistical analysis .....	110
4.4 Results.....	111
4.4.1 Biomass allocation .....	111
4.4.2 Multiple comparisons.....	113
4.5 Discussion.....	115
4.5.1 Tree growth-climate relationship .....	115
4.5.2 Most responsive variables to changing environmental conditions.....	116
4.6 Acknowledgements.....	117
<b>Chapter 5 Climate change and phenology .....</b>	<b>119</b>
5.1 On-set spring phenology .....	120
5.1.1 Chilling and forcing requirements of spruce and beech saplings.....	121
5.2 Off-set growing season .....	122
5.3 Abstract.....	124
5.4 Introduction.....	125
5.5 Materials and methods .....	127
5.5.1 Study sites and experimental design .....	127
5.5.2 Phenological observations.....	129
5.5.3 Climatic data .....	130
5.5.4 Growth and bud morphology .....	130
5.5.5 Nonstructural carbohydrate (NSC) analysis.....	132
5.5.6 Data analysis .....	132
5.6 Results.....	133
5.6.1 Budburst in spring 2014 after a cooling or warming winter .....	133
5.6.2 Carryover effects of the timing of budburst on budset, and next year budburst.....	135
5.6.3 Carryover effect on growth, bud morphology, and non-structural carbohydrates (NSCs) .....	138
5.7 Discussion.....	140
5.7.1 Asymmetric budburst response to cooling and warming .....	141
5.7.2 One phenophase can affect subsequent phenophases .....	143
5.7.3 Relationship between chilling and forcing requirements.....	144
5.7.4. Limitations of the study .....	145
5.8 Acknowledgements.....	146

<b>Chapter 6      Discussion .....</b>	<b>147</b>
6.1 Main findings .....	149
6.1.1 Tree growth under simulated climate change .....	149
6.1.2 Responses of foliage to simulated climate change.....	150
6.2 Research questions.....	151
6.3 Research limitations.....	160
6.3.1 Study duration .....	160
6.3.2 Pot experiment.....	160
6.4 Outlook .....	161
6.5 Final conclusion.....	161
<b>References.....</b>	<b>163</b>
<b>Supporting material .....</b>	<b>180</b>
Chapter 2 Supplementary information.....	181
Chapter 3 Supplementary information.....	184
Chapter 5 Supplementary information.....	190
<b>Appendix .....</b>	<b>191</b>
<b>Curriculum Vitae.....</b>	<b>197</b>
