

Table of contents

List of figures	xv
List of tables	xix
1 Introduction	1
2 Topological analysis of neuronal morphologies	7
2.1 Introduction	7
2.2 A topological representation of branching neuronal morphologies	16
2.3 Objective Classification of Neocortical Pyramidal Cells	37
2.4 Comprehensive morpho-electrotonic analysis of human cells	59
3 Generating neuronal morphologies	95
3.1 Introduction	95
3.2 Generative model of cortical dendritic morphologies	99
4 Modeling multi-neuron growth via random walks	125
4.1 Introduction	125
4.2 Methods	128
4.3 Analysis of artificially generated networks	132
4.4 Results	136
4.5 Conclusions	151
5 Future directions	155
Appendix A SI: A topological representation of branching neuronal morphologies	161
Appendix B Of mouse and human cells	199

Appendix C Topological synthesis of cortical pyramidal cells	201
Appendix D List of publications	223
Appendix E Curriculum Vitae (CV)	227
