About the Special Issue Editor	v
Preface to "Pathophysiology and Imaging Diagnosis of Demyelinating Disorders"	vii
Taylor E. Purvis, Daniel Lubelski and Thomas E. Mroz Is Decompressive Surgery for Cervical Spondylotic Myelopathy Effective in Patients Suffering from Concomitant Multiple Sclerosis or Parkinson's Disease? doi:10.3390/brainsci7040039	1
Nicholas A. Hubbard, Yoel Sanchez Araujo, Camila Caballero, Minhui Ouyang, Monroe P. Turner, Lyndahl Himes, Shawheen Faghihahmadabadi, Binu P. Thomas, John Hart Jr., Hao Huang, Darin T. Okuda and Bart Rypma Evaluation of Visual-Evoked Cerebral Metabolic Rate of Oxygen as a Diagnostic Marker in Multiple Sclerosis doi:10.3390/brainsci7060064	10
Hannah E. Salapa, Sangmin Lee, Yoojin Shin and Michael C. Levin Contribution of the Degeneration of the Neuro-Axonal Unit to the Pathogenesis of Multiple Sclerosis doi:10.3390/brainsci7060069	33
Silke Kinzel and Martin S. Weber The Role of Peripheral CNS-Directed Antibodies in Promoting Inflammatory CNS Demyelination doi:10.3390/brainsci7070070	43
Narges Dargahi, Maria Katsara, Theodore Tselios, Maria-Eleni Androutsou, Maximilian de Courten, John Matsoukas and Vasso Apostolopoulos Multiple Sclerosis: Immunopathology and Treatment Update doi:10.3390/brainsci7070078	54
Evanthia Bernitsas, Kalyan Yarraguntla, Fen Bao, Rishi Sood, Carla Santiago-Martinez, Rajkumar Govindan, Omar Khan and Navid Seraji-Bozorgzad Structural and Neuronal Integrity Measures of Fatigue Severity in Multiple Sclerosis doi:10.3390/brainsci7080102	81
Robert P. Lisak and Joyce A. Benjamins Melanocortins, Melanocortin Receptors and Multiple Sclerosis doi:10.3390/brainsci7080104	91
Rana K. Zabad, Renee Stewart and Kathleen M. Healey Pattern Recognition of the Multiple Sclerosis Syndrome doi:10.3390/brainsci7100138	109
Tanima Bose Role of Immunological Memory Cells as a Therapeutic Target in Multiple Sclerosis doi:10.3390/brainsci7110148	160
