

Contents

1	Introduction	10
1.1	Overview of research papers	13
2	Study context - The Blue Nile Basin	15
2.1	The hydro-climatic context	16
2.2	Climate change scenarios	18
3	The analytical framework	21
3.1	Concept of hydrologic modelling	22
3.2	Modelling approach for the upper Blue Nile Basin	22
4	Research Papers	27
4.1	Comparing CFSR and conventional weather data for discharge and soil loss modelling with SWAT in small catchments in the Ethiopian Highlands	27
4.2	Model parameter transfer for streamflow and sediment loss prediction with SWAT in a tropical watershed	42
4.3	Impact of precipitation and temperature changes on hydrological responses of small-scale catchments in the Ethiopian Highlands	56
4.4	Modelling the effects of soil and water conservation on discharge and sediment yield in the upper Blue Nile basin Ethiopia	70
4.5	Spatial and temporal variability in hydrological responses of the upper Blue Nile basin, Ethiopia	84
4.6	Effects of climate change on water resources in the upper Blue Nile Basin of Ethiopia	127
5	Synthesis and outlook	160
	Bibliography	165
