Summary	v
Muhtasari	ix
Acronyms and abbreviations.....	xiv
1. General Introduction.....	1
1.1. The Global burden of HIV/AIDS.....	1
1.2. Prevention of Mother-To-Child Transmission of HIV	3
1.2.1. HIV and Prevention of Mother-to-Child Transmission in Tanzania.....	7
1.3. Children living with HIV	8
1.3.1. Children living with HIV in Tanzania	11
1.3.2. Children and HIV drug resistance-associated mutations	12
2. Specific introduction to this thesis.....	14
2.1. Study 1.....	14
2.2. Study 2.....	14
2.3. Study 3.....	14
2.4. Study 4.....	14
2.5. Study 5.....	14
3. Objectives and Research Aims	15
3.1. Study 1.....	15
3.2. Study 2.....	15
3.3. Study 3.....	16
3.4. Study 4.....	17
3.5. Study 5.....	17
4. Methods	19
4.1. Study site.....	19
4.2. Study 1.....	20
4.3. Study 2.....	21
4.4. Study 3.....	21
4.5. Study 4.....	22
4.6. Study 5.....	22
5. Study 1: Uptake of Guidelines on Prevention of Mother-to-Child Transmission of HIV in Rural Tanzania - Time for change.....	24
Summary	26
Different options for preventing mother-to-child transmission of HIV	26
A cross-sectional survey in a referral hospital in Tanzania assessing the uptake of the current PMTCT recommendations – an example for problems encountered in rural sub-Saharan Africa	29
Setting at a rural referral hospital.....	30
PMTCT Circuit at St. Francis referral hospital and gaps identified.....	30
Propositions to increase the uptake of current and upcoming PMTCT guidelines - Time for change	36
Conclusions	40

6. Study 2: An Integrated and Comprehensive Service Delivery Model to Improve Pediatric and Maternal HIV Care in Rural Africa	41
Abstract	43
Introduction	44
Methods	45
Study setting and population	45
Description of the intervention.....	45
Statistical analysis.....	48
Results	48
Cohort characteristics	48
Outcomes of pregnant women	50
Outcomes of children	51
Characteristics of the HIV-exposed infants and early Mother-To-Child Transmission	52
Discussion.....	54
7. Study 3: Prevention of Mother-To-Child Transmission Option B+ Cascade in Rural Tanzania: the One Stop Clinic Model	58
Abstract	60
Introduction	61
Methods	61
Study setting and population	61
Statistical analysis.....	63
Results	63
Implementation of a new PMTCT care pathway.....	63
PMTCT at the Antenatal Clinic	64
Pregnant women receiving HIV care at the One Stop Clinic.....	65
PMTCT at the labour ward	68
HIV-exposed infants and mother-to-child transmission	69
Discussion.....	70
Conclusions	73
8. Study 4: A Case Series of Acquired Drug Resistance-Associated Mutations in HIV-infected Children: an Emerging Public Health Concern in Rural Africa.....	75
Abstract	77
Introduction	77
Material and methods.....	77
Study setting and population	77
Clinical data	78
Viral load and genotypic resistance testing	78
Results	78
Clinical characteristics	79
Genotypic resistance profile	81
Outcome.....	81
Discussion.....	81
9. Study 5: Development of HIV Drug Resistance and Therapeutic Failure in Children and Adolescents in Rural Tanzania – An Emerging Public Health Concern.....	84
Abstract	86

Background	87
Patients and methods	87
Study site and population	87
Viral load testing and HIV genotyping.....	88
Statistical analysis.....	88
Ethical approval.....	89
Results	89
Characteristics of study population	89
Virologic outcome	91
Immunologic response after ART initiation and virologic outcome	92
Predictors of virologic failure	93
HIV drug resistance mutations.....	95
Acquisition of drug resistance mutations after treatment initiation.....	96
Risk factors for the acquisition of HIV-DRM.....	97
Sensitivity and specificity of WHO immunological criteria to detect treatment failure.....	97
Discussion.....	97
10. Discussion.....	103
10.1. Strengths and limitations of the work included in this thesis.....	103
10.2. Discussion of key findings	104
10.3. The way forward: implications for policy and practice.....	115
11. Conclusions	118
12. List of references.....	120
13. A brief CV.....	140
