About the Special Issue Editors	vii
Preface to “Advances in Environmental Engineering”	ix
Adriana Estokova and Magdalena Balintova Advances in Environmental Engineering Reprinted from: <i>Environments</i> 2018, 5, 54, doi: 10.3390/environments5050054	1
Marc-André Lecours, Emmanuel Eysseric, Viviane Yargeau, Jean Lessard, Gessie M. Brisard and Pedro A. Segura Electrochemistry-High Resolution Mass Spectrometry to Study Oxidation Products of Trimethoprim Reprinted from: <i>Environments</i> 2018, 5, 18, doi: 10.3390/environments5010018	4
Xinbo Tian and Antoine Trzcinski Effects of Physico-Chemical Post-Treatments on the Semi-Continuous Anaerobic Digestion of Sewage Sludge Reprinted from: <i>Environments</i> 2017, 4, 49, doi: 10.3390/environments4030049	22
Martin Pipíška, Martin Valica, Denisa Partelová, Miroslav Horník, Juraj Lesný and Stanislav Hostin Removal of Synthetic Dyes by Dried Biomass of Freshwater Moss <i>Vesicularia Dubyana</i> : A Batch Biosorption Study Reprinted from: <i>Environments</i> 2018, 5, 10, doi: 10.3390/environments5010010	34
Pedro Cisterna Biological Treatment by Active Sludge with High Biomass Concentration at Laboratory Scale for Mixed Inflow of Sunflower Oil and Saccharose Reprinted from: <i>Environments</i> 2017, 4, 69, doi: 10.3390/environments4040069	46
Milan Gomboš, Andrej Tall, Branislav Kandra, Lucia Balejíčková and Dana Pavelková Geometric Factor as the Characteristics of the Three-Dimensional Process of Volume Changes of Heavy Soils Reprinted from: <i>Environments</i> 2018, 5, 45, doi: 10.3390/environments5040045	59
Natalia Junakova, Magdalena Balintova, Roman Vodička and Jozef Junak Prediction of Reservoir Sediment Quality Based on Erosion Processes in Watershed Using Mathematical Modelling Reprinted from: <i>Environments</i> 2018, 5, 6, doi: 10.3390/environments5010006	69
Simona Jursová, Dorota Burchart-Korol, Pavlína Pustějovská, Jerzy Korol and Agata Blaut Greenhouse Gas Emission Assessment from Electricity Production in the Czech Republic Reprinted from: <i>Environments</i> 2018, 5, 17, doi: 10.3390/environments5010017	81
Martina Zelenáková, Rastislav Fijko, Daniel Constantin Diaconu and Iveta Remeňáková Environmental Impact of Small Hydro Power Plant—A Case Study Reprinted from: <i>Environments</i> 2018, 5, 12, doi: 10.3390/environments5010012	91
Vlasta Ondrejka Harbulakova, Martina Zelenakova, Pavol Purcz and Adrian Olejnik Selection of the Best Alternative of Heating System by Environmental Impact Assessment—Case Study Reprinted from: <i>Environments</i> 2018, 5, 19, doi: 10.3390/environments5020019	101

Wen-Tien Tsai

Overview of Green Building Material (GBM) Policies and Guidelines with Relevance to Indoor Air Quality Management in Taiwan

Reprinted from: *Environments* **2018**, 5, 4, doi: 10.3390/environments5010004 **117**

Magdalena Penkała, Paweł Ogródnik and Wioletta Rogula-Kozłowska

Particulate Matter from the Road Surface Abrasion as a Problem of Non-Exhaust Emission Control

Reprinted from: *Environments* **2018**, 5, 9, doi: 10.3390/environments5010009 **127**

Marek Kováč and Alena Sičáková

Pervious Concrete as an Environmental Solution for Pavements: Focus on Key Properties

Reprinted from: *Environments* **2018**, 5, 11, doi: 10.3390/environments5010011 **140**
