|--|--------------|
| i. Acknowledgements | xxiii |
| ii. Summary | xxv |
| iii. List of abbreviations | xxxii |
| 1. Introduction including literature review | 1 |
| 1.1. Campylobacteriosis..... | 2 |
| 1.1.1. Pathogenesis | 2 |
| 1.1.2. Risk factors for contracting campylobacteriosis | 4 |
| 1.1.3. Risk factors for contracting campylobacteriosis in Switzerland | 7 |
| 1.1.4. Measures to reduce the burden of campylobacteriosis | 10 |
| 1.2. Acute gastroenteritis and infectious intestinal diseases caused by <i>Campylobacter</i> spp. and other gastrointestinal pathogens | 11 |
| 1.2.1. Acute gastroenteritis..... | 11 |
| 1.2.2. Infectious intestinal diseases | 12 |
| 1.3. Disease burden and epidemiology of acute gastroenteritis and human campylobacteriosis | 14 |
| 1.3.1. Disease burden and epidemiology of acute gastroenteritis in high-income countries | 14 |

| | |
|---|----|
| 1.3.2. Disease burden and epidemiology of campylobacteriosis in high-income countries..... | 17 |
| 1.3.3. Disease burden and epidemiology of acute gastroenteritis and campylobacteriosis in Switzerland | 23 |
| 1.4. Economic burden of acute gastroenteritis and campylobacteriosis | 29 |
| 1.5. Health care seeking of and case management for patients suffering from campylobacteriosis and other infectious intestinal diseases | 31 |
| 1.5.1. Health care seeking of individuals affected by AG..... | 31 |
| 1.5.2. Anamnesis and clinical evaluation of patients with AG | 32 |
| 1.5.3. Diagnostic tests for infectious intestinal diseases in patients with AG..... | 33 |
| 1.5.4. Treatment of acute gastroenteritis and infectious intestinal diseases | 36 |
| 1.6. Surveillance of infectious intestinal diseases | 38 |
| 1.6.1. Laboratory surveillance systems for infectious intestinal diseases | 40 |
| 1.6.2. Surveillance of campylobacteriosis and other infectious intestinal diseases in Europe..... | 44 |
| 1.6.3. Surveillance of campylobacteriosis and other infectious intestinal diseases by the NNSID in Switzerland | 45 |

| | |
|--|-----------|
| 1.6.4. The Swiss Sentinel Surveillance Network Sentinella | 46 |
| 2. Context and background for this work | 49 |
| 2.1. Rationale and identified research needs..... | 49 |
| 2.2. Aim and objectives | 51 |
| 2.2.1. Overall aim | 51 |
| 2.2.2. General objective 1..... | 51 |
| 2.2.3. General objective 2..... | 52 |
| 3. Research concept and methodological overview | 53 |
| 3.1. Collaborations | 55 |
| 3.2. Summary of research approaches and study designs | 56 |
| 3.2.1. A tradition and an epidemic: determinants of the campylobacteriosis winter peak in Switzerland..... | 56 |
| 3.2.2. The recurrent campylobacteriosis epidemic over Christmas and New Year in European countries, 2006-2014 | 57 |
| 3.2.3. Time trends of positivity rates from foodborne pathogen testing in Switzerland, 2003-2012 | 58 |
| 3.2.4. Acute gastroenteritis and campylobacteriosis in Swiss primary care: the viewpoint of general practitioners..... | 58 |

| | |
|---|-----------|
| 3.2.5. Acute gastroenteritis in primary care: a longitudinal study in the Swiss Sentinel Surveillance Network, Sentinella | 59 |
| 3.2.6. Estimating health care costs of acute gastroenteritis and human campylobacteriosis in Switzerland | 60 |
| 3.3. Ethical considerations | 61 |
| 4. ARTICLE 1: A tradition and an epidemic: determinants of the campylobacteriosis winter peak in Switzerland | 63 |
| 4.1. Abstract | 64 |
| 4.2. Keywords | 65 |
| 4.3. Introduction | 65 |
| 4.4. Methods | 67 |
| 4.4.1. Cases | 67 |
| 4.4.2. Controls | 68 |
| 4.4.3. Sample size | 68 |
| 4.4.4. Recruitment process | 68 |
| 4.4.5. Questionnaire | 69 |
| 4.4.6. Statistical analyses | 69 |
| 4.5. Results | 70 |
| 4.5.1. Response rate and basic characteristics of study participants | 70 |
| 4.5.2. Risk factors for campylobacteriosis during the festive season | 71 |

| | |
|---|-----------|
| 4.5.3. Campylobacteriosis case characterisation | 76 |
| 4.6. Discussion | 83 |
| 4.6.1. Factors associated with increased risk of <i>Campylobacter</i> infections | 83 |
| 4.6.2. Factors associated with reduced risk of <i>Campylobacter</i> infections | 85 |
| 4.6.3. Illness perception and treatment of acute campylobacteriosis | 87 |
| 4.6.4. Strengths and limitations | 87 |
| 4.7. Conclusion | 88 |
| 4.8. Acknowledgements | 89 |
| 4.9. Conflict of interest | 89 |
| 4.10. Ethical statement | 90 |
| 4.11. References | 90 |
| 5. ARTICLE 2: The recurrent campylobacteriosis epidemic over Christmas and New Year in European countries, 2006 - 2014 | 99 |
| 5.1. Abstract | 100 |
| 5.2. Keywords | 101 |
| 5.3. Introduction | 101 |
| 5.4. Main text | 102 |
| 5.4.1. Analysis of <i>Campylobacter</i> surveillance data | 102 |
| 5.4.2. Seasonal patterns of campylobacteriosis | 106 |

| | |
|--|------------|
| 5.4.3. Possible reasons for the seasonal patterns .. | 111 |
| 5.5. Limitations | 112 |
| 5.6. Abbreviations | 113 |
| 5.7. Authors' contributions | 113 |
| 5.8. Acknowledgements | 113 |
| 5.9. Competing interests | 113 |
| 5.10. Disclaimer | 114 |
| 5.11. Funding | 114 |
| 5.12. References | 115 |
| 6. ARTICLE 3: Time trends of positivity rates from foodborne pathogen testing in Switzerland, 2003 - 2012 | 117 |
| 6.1. Summary | 118 |
| 6.2. Keywords | 119 |
| 6.3. Introduction | 119 |
| 6.4. Materials and methods | 121 |
| 6.4.1. Selection of diagnostic laboratories | 121 |
| 6.4.2. Analysis of positivity rates | 122 |
| 6.4.3. Univariable and multivariable regression models | 123 |
| 6.4.4. Ethical statement | 123 |
| 6.5. Results | 124 |
| 6.5.1. Exclusion of test results and representativeness | 124 |

| | |
|--|-----|
| 6.5.2. Characteristics of the patient population and overview of tests performed | 128 |
| 6.5.3. Annual positivity rates overall and by laboratory | 128 |
| 6.5.4. Annual positivity rates by sex and age groups | 129 |
| 6.5.5. Seasonal trends in stool sampling and positivity rates | 131 |
| 6.5.6. Regression analyses | 133 |
| 6.6. Discussion | 137 |
| 6.6.1. Annual positivity rates in relation to NNSID notification rates | 137 |
| 6.6.2. Positivity rates in relation to age and sex | 140 |
| 6.6.3. Seasonality of positivity rates and notification rates | 141 |
| 6.6.4. Strengths and limitations | 143 |
| 6.7. Conclusions | 144 |
| 6.8. Acknowledgements | 145 |
| 6.9. Financial disclosure | 145 |
| 6.10. Competing interests | 145 |
| 6.11. References | 146 |

| | |
|---|------------|
| 7. ARTICLE 4: Acute gastroenteritis and campylobacteriosis in Swiss primary care: the viewpoint of general practitioners | 155 |
| 7.1. Abstract | 156 |
| 7.2. Keywords | 157 |
| 7.3. Introduction | 157 |
| 7.4. Materials & Methods..... | 159 |
| 7.4.1. Questionnaire development | 159 |
| 7.4.2. Interviewer training and pilot testing of questionnaire..... | 159 |
| 7.4.3. Recruitment of GPs and interview procedure | 160 |
| 7.4.4. Data analysis | 160 |
| 7.4.5. Ethics statement | 161 |
| 7.5. Results | 162 |
| 7.5.1. Characteristics of participating GPs | 162 |
| 7.5.2. Perception of acute gastroenteritis and campylobacteriosis | 163 |
| 7.5.3. Health care seeking behaviour and medical encounters at the primary care level..... | 166 |
| 7.5.4. Diagnostic and treatment approaches | 168 |
| 7.5.5. The interplay of stool diagnostics and antibiotic therapy | 172 |
| 7.5.6. Referrals..... | 176 |

| | |
|--|------------|
| 7.6. Discussion..... | 177 |
| 7.6.1. The burden of acute gastroenteritis and campylobacteriosis | 177 |
| 7.6.2. The influence of patients' health care seeking behaviour on NNSID case numbers | 179 |
| 7.6.3. The influence of diagnostic approaches on NNSID case numbers | 180 |
| 7.6.4. "Treat & See" and "Treat & Test" for targeted antibiotic therapies | 182 |
| 7.6.5. Discussion of research approach | 184 |
| 7.7. Conclusions..... | 186 |
| 7.8. Acknowledgments | 187 |
| 7.9. References..... | 187 |
| 8. ARTICLE 5: Acute gastroenteritis in primary care: a longitudinal study in the Swiss Sentinel Surveillance Network, <i>Sentinella</i> | 197 |
| 8.1. Abstract..... | 198 |
| 8.2. Keywords..... | 199 |
| 8.3. Background..... | 199 |
| 8.4. Methods | 201 |
| 8.4.1. Study setting | 201 |
| 8.4.2. Case definition..... | 202 |
| 8.4.3. Data collection..... | 203 |

| | |
|---|-----|
| 8.4.4. Subsample for supplementary questionnaire | 204 |
| 8.4.5. Data entry and analysis | 205 |
| 8.5. Results | 206 |
| 8.5.1. Physician and patient characteristics | 206 |
| 8.5.2. Burden of AG at primary care level | 207 |
| 8.5.3. Health care seeking and clinical presentation | 211 |
| 8.5.4. Stool diagnostics and results | 213 |
| 8.5.5. Approaches for symptomatic and antibiotic therapy | 219 |
| 8.6. Discussion | 225 |
| 8.6.1. Multiple factors influence physicians' decision making | 226 |
| 8.6.2. Physicians' case management impacts on the mandatory surveillance system | 228 |
| 8.6.3. Mild disease with high socio-economic burden | 229 |
| 8.6.4. Sentinella is invaluable to investigate current public health issues | 230 |
| 8.7. Conclusion | 231 |
| 8.8. Acknowledgements | 232 |
| 8.9. Ethical statement | 233 |
| 8.10. Conflict of interest | 233 |
| 8.11. References | 234 |

| | |
|---|------------|
| 9. ARTICLE 6: Estimating healthcare costs of acute gastroenteritis and human campylobacteriosis in Switzerland | 241 |
| 9.1. Abstract | 242 |
| 9.2. Keywords | 242 |
| 9.3. Introduction | 243 |
| 9.4. Methods | 249 |
| 9.4.1. Typology of patients: patient management models | 249 |
| 9.4.2. Population figures as basis for modelling: sources and approach | 249 |
| 9.4.3. Healthcare expenditures | 252 |
| 9.4.4. Data analysis | 253 |
| 9.5. Results | 257 |
| 9.5.1. Frequency of different patient management models in Switzerland | 257 |
| 9.5.2. Individual case management costs for AG and campylobacteriosis patients | 258 |
| 9.5.3. Healthcare costs due to AG and campylobacteriosis | 259 |
| 9.6. Discussion | 263 |
| 9.6.1. Healthcare costs of laboratory-confirmed campylobacteriosis patients | 264 |
| 9.6.2. Healthcare costs of AG patients | 265 |

| | |
|--|------------|
| 9.6.3. Comparison of cost estimates for Switzerland with estimates of other countries..... | 266 |
| 9.6.4. Unknown socioeconomic burden | 268 |
| 9.7. Acknowledgments | 269 |
| 9.8. Declaration of Interest..... | 269 |
| 9.9. References | 270 |
| 10. General discussion | 277 |
| 10.1. Campylobacteriosis and acute gastroenteritis along the burden-of-illness pyramid | 279 |
| 10.1.1. Disease burden and health care costs..... | 279 |
| 10.1.2. Usefulness and validity of the disease burden of campylobacteriosis and salmonellosis measured by the National Notification System for Infectious Diseases | 283 |
| 10.1.3. Influence of diagnostic practices and methods on the disease burden measured by the National Notification System for Infectious Diseases | 285 |
| 10.1.4. Monitoring the disease burden of non-notifiable infectious intestinal diseases and AG in Switzerland..... | 287 |
| 10.1.5. Case management of patients suffering from acute gastroenteritis and campylobacteriosis | 291 |

| | |
|---|------------|
| 10.2. Control measures to reduce the burden of human campylobacteriosis in Switzerland | 295 |
| 10.2.1. Control measures along the poultry production chain | 297 |
| 10.2.2. Prevention measures at the consumer and household level..... | 301 |
| 10.2.3. Impact of measures implemented on the number of notified campylobacteriosis cases | 302 |
| 10.3. Strengths and limitations of the research conducted..... | 305 |
| 11. Conclusion | 309 |
| 11.1. Recommendations..... | 311 |
| 12. Outlook | 313 |
| 13. References | 315 |
| 14. Appendices | 345 |
| 14.1. Reporting form for laboratory statistics..... | 346 |
| 14.2. Reporting form for laboratory diagnoses of notifiable diseases..... | 348 |
| 14.3. Selected articles in Swiss media | 350 |
| 15. Curriculum vitae | 352 |
