

Table of Content

Summary	2
Zusammenfassung	4
Abbreviations	6
General introduction	8
1.1 Obesity	8
1.2 Metabolic syndrome	9
1.3 MHO and MONW	9
1.4 Development of adipose tissue	11
1.5 Function of WAT and BAT	24
1.6 Importance of functional adipose tissue	25
1.7 Adipose tissue and age	26
1.8 UCPI	26
1.9 Regulation of UCPI	27
1.10 Adipose tissue in obesity and scope of the thesis	28
Chapter I	31
Proliferation of nutrition-sensing preadipocytes upon short term HFD feeding	31
Chapter II	53
Inducible UCPI+ cell ablation allows independent study of brown and white adipocytes in adult mice	53
Thesis discussion	83
Bibliography	90
Further publications	105
Acknowledgements	117
Curriculum Vitae	118
