

## TABLE OF CONTENTS

ABBREVIATIONS .....	V
SUMMARY .....	1
ZUSAMMENFASSUNG .....	5
RIASSUNT.....	11
INTRODUCTION .....	15
LITERATURE REVIEW .....	19
<b>1 Anaemia, iron deficiency and iron deficiency anaemia .....</b>	<b>19</b>
1.1 Epidemiology of anaemia.....	19
1.2 Aetiology of anaemia.....	19
1.3 Consequences of iron deficiency anaemia .....	21
1.4 Iron fortification as a strategy to combat nutritional iron deficiency.....	22
1.4.1 <i>Iron compounds for food fortification.....</i>	<i>24</i>
1.4.1.1 <i>Water-soluble iron compounds: ferrous sulphate.....</i>	<i>24</i>
1.4.1.2 <i>Poorly water-soluble iron compounds soluble in diluted acid: ferrous fumarate..</i>	<i>25</i>
1.4.1.3 <i>Water-insoluble iron compounds poorly soluble in diluted acid.....</i>	<i>27</i>
1.4.1.4 <i>Chelated iron compounds: NaFeEDTA.....</i>	<i>29</i>
1.4.2 <i>In-home fortification with iron-containing micronutrient powders (MNPs).....</i>	<i>31</i>
1.4.2.1 <i>Efficacy of in-home fortification with iron-containing MNPs.....</i>	<i>32</i>
1.4.2.2 <i>Safety of in-home fortification with iron-containing MNPs.....</i>	<i>36</i>
1.5 Indicators of iron deficiency anaemia.....	38
1.5.1 <i>Haemoglobin .....</i>	<i>38</i>
1.5.2 <i>Serum ferritin .....</i>	<i>38</i>
1.5.3 <i>Soluble transferrin receptor.....</i>	<i>39</i>
1.5.4 <i>Body iron stores .....</i>	<i>40</i>
1.6 Methods to assess iron absorption in humans.....	40

<b>2 The infant gut microbiota</b> .....	44
2.1 Factors influencing the infant gut microbiota .....	45
2.1.1 Gestational age .....	45
2.1.2 Mode of delivery .....	46
2.1.3 Breastfeeding and formula-feeding .....	47
2.1.4 Introduction of solid complementary foods .....	48
2.1.5 Antibiotics .....	49
2.1.6 Geographical influence .....	50
<b>3 Prebiotics</b> .....	52
3.1 Definition of galacto-oligosaccharides (GOS) .....	52
3.2 Production of GOS .....	53
3.3 Physicochemical characteristics of GOS .....	55
3.4 Global market for GOS .....	55
3.5 GOS and the infant gut microbiota .....	57
3.6 GOS and bacterial fermentation metabolites .....	59
3.7 GOS and potential enteric pathogens .....	61
3.8 GOS, the gut microbiota and the immune system .....	63
3.8.1 The 'gut-lung axis' .....	65
3.9 GOS and infant morbidity .....	67
3.10 Prebiotics and iron absorption .....	70
3.10.1 Iron absorption .....	70
3.10.2 Prebiotics and iron absorption .....	72
<b>4 Techniques and analyses for gut microbiome research</b> .....	75
4.1 Culture-dependent techniques .....	75
4.2 Culture-independent, molecular-based techniques .....	75
4.2.1 Fingerprinting techniques .....	76
4.2.2 Fluorescence <i>in situ</i> hybridization .....	76
4.2.3 Polymerase chain reaction and real-time polymerase chain reaction .....	77
4.2.4 Next generation sequencing technologies .....	80
4.2.4.1 16S rRNA gene sequencing .....	81
4.2.4.2 Whole metagenome analysis .....	88

4.2.4.3 Metatranscriptome analysis .....	89
4.3 Further '-omic' approaches .....	89
<b>5 Non-invasive biomarkers to assess gut wall integrity and gut inflammation</b> 91	
5.1 Faecal calprotectin .....	92
5.2 Intestinal fatty acid binding protein .....	94
<b>6 References</b> .....	96
<b>REVIEW 1</b> .....	123
<b>REVIEW 2</b> .....	139
<b>MANUSCRIPT 1</b> .....	155
<b>MANUSCRIPT 2</b> .....	185
<b>MANUSCRIPT 3</b> .....	221
<b>CONCLUSIONS AND PERSPECTIVES</b> .....	259
<b>CURRICULUM VITAE</b> .....	281
