About the Special Issue Editor	vii
 Leandro Pardo Reprinted from: <i>Entropy</i> 2019, 391, 21, doi:10.3390/e21040391	 1
Abhik Ghosh and Ayanendranath Basu A Generalized Relative (α, β) -Entropy: Geometric Properties and Applications to Robust Statistical Inference Reprinted from: <i>Entropy</i> 2018, 347, 20, doi:10.3390/e20050347	8
Yuefeng Wu and Giles Hooker Asymptotic Properties for Methods Combining the Minimum Hellinger Distance Estimate and the Bayesian Nonparametric Density Estimate Reprinted from: <i>Entropy</i> 2018, 20, 955, doi:10.3390/e20120955	40
Elena Castilla, Nirian Martín, Leandro Pardo and Kostantinos Zografos Composite Likelihood Methods Based on Minimum Density Power Divergence Estimator Reprinted from: <i>Entropy</i> 2018, 20, 18, doi:10.3390/e20010018	60
Michel Broniatowski, Jana Jurečková, M. Ashok Kumar and Emilie Miranda Composite Tests under Corrupted Data Reprinted from: <i>Entropy</i> 2019, 21, 63, doi:10.3390/e21010063	80
Osamah Abdullah Convex Optimization via Symmetrical Hölder Divergence for a WLAN Indoor Positioning System Reprinted from: <i>Entropy</i> 2018, 20, 639, doi:10.3390/e20090639	103
Michel Broniatowski, Jana Jurečková and Jan Kalina Likelihood Ratio Testing under Measurement Errors Reprinted from: <i>Entropy</i> 2018, 20, 966, doi:10.3390/e20120966	117
M. Virtudes Alba-Fernández, M. Dolores Jiménez-Gamero and F. Javier Ariza-López Minimum Penalized ϕ -Divergence Estimation under Model Misspecification Reprinted from: <i>Entropy</i> 2018, 20, 329, doi:10.3390/e20050329	126
Marianthi Markatou and Yang Chen Non-Quadratic Distances in Model Assessment Reprinted from: <i>Entropy</i> 2018, 20, 464, doi:10.3390/e20060464	141
Maria Kateri ϕ -Divergence in Contingency Table Analysis Reprinted from: <i>Entropy</i> 2018, 20, 324, doi:10.3390/e20050324	161
Takayuki Kawashima and Hironori Fujisawa Robust and Sparse Regression via γ -Divergence Reprinted from: <i>Entropy</i> 2017, 19, 608, doi:10.3390/e19110608	173
Chunming Zhang and Zhengjun Zhang Robust-BD Estimation and Inference for General Partially Linear Models Reprinted from: <i>Entropy</i> 2017, 19, 625, doi:10.3390/e19110625	194

Aida Toma and Cristina Fulga Robust Estimation for the Single Index Model Using Pseudodistances Reprinted from: <i>Entropy</i> 2018 , <i>20</i> , 374, doi:10.3390/e20050374	223
Lei Li, Anand N. Vidyashankar, Guoqing Diao and Ejaz Ahmed Robust Inference after Random Projections via Hellinger Distance for Location-Scale Family Reprinted from: <i>Entropy</i> 2019 , <i>21</i> , 348, doi:10.3390/e21040348	243
Xiao Guo and Chunming Zhang Robustness Property of Robust-BD Wald-Type Test for Varying-Dimensional General Linear Models Reprinted from: <i>Entropy</i> 2018 , <i>20</i> , 168, doi:10.3390/e20030168	283
Kei Hirose and Hiroki Masuda Robust Relative Error Estimation Reprinted from: <i>Entropy</i> 2018 , <i>20</i> , 632, doi:10.3390/e20090632	311
