Table of content	i
Acknowledgements	iv
Summary	vii
List of acronyms and abbreviations.....	xiii
List of figures	xv
List of tables	iv
1 Thesis outline	1
2 Introduction including literature review	4
2.1 Urbanization in African	4
2.2 Urbanization-related infrastructure challenges in African cities.....	5
2.2.1 Water issues in African cities.....	7
2.2.2 Sanitation issues in African cities	8
2.2.3 Hygiene issues in African cities	9
2.3 Resulting health risk in African cities	10
2.4 Focus on diarrhoeal diseases	11
2.4.1 Definition of diarrhoea	11
2.4.2 Burden of diarrhoeal diseases among children under five yearsd.....	12
2.4.3 Geographic distribution of diarrhoea mortality rate in children under five.....	13
2.4.4 Diarrhoeal diseases aetiology.....	14
2.4.5 Diarrhoea transmission.....	15
2.4.5.1 WASH factors and diarrhoea transmission	15
2.4.5.2 Climatic factors and diarrhoea transmission	17
3 Senegal's urbanization trends, water and sanitation challenges	19
3.1 Urbanization trends and socio-economical profile of Senegal.....	19
3.2 Water, sanitation and hygiene challenges in Senegal.....	20
3.2.1 Drinking water challenges	20
3.2.2 Sanitation and hygiene challenges	22
3.3 Diarrhoeal diseases burden and control policies in Senegal.....	23

4	Background and objective of the PhD thesis	25
4.1	Identified research needs	25
4.2	Goals and objectives of the thesis	27
4.2.1	Goals	27
4.2.2	Specific objectives	27
4.3	Conceptual framework	28
5	Methodology	29
5.1	Multidisciplinary approach	29
5.2	Study area, Mbour, a rapidly growing secondary coastal city of Senegal	29
5.2.1	Location and neighborhoods	29
5.2.2	Population and spatial growth of the city	30
5.2.3	Drinking water and sanitation network coverage	32
5.2.4	Health conditions	35
5.3	Data collection	35
5.3.1	Overview	35
5.3.2	Study population	35
5.3.3	Secondary data collection	35
5.3.3.1	Demographic, health surveillance and climatic data	35
5.3.3.2	Mapping data	36
5.3.4	Primary data collection	37
5.3.4.1	Cross-sectional epidemiological household surveys	37
5.3.4.2	Demographic and spatial sampling strategy for the surveys	38
5.3.4.3	Household inclusion criteria	40
5.3.4.4	Mapping of selected households	40
5.3.4.5	Drinking water analysis	41
5.4	Data analysis	42
5.5	Ethical considerations	44
6	ARTICLE 1: Urbanization and its effect on risk factors associated with childhood diarrhoea in Mbour, Senegal: a visualization	45
7	ARTICLE 2: Prevalence of diarrhoea and risk factors among under 5-year-old children in Mbour, Senegal: a cross-sectional study	50

8	ARTICLE 3: Association between childhood diarrhoeal incidence and climatic factors in urban and rural settings in the health district of Mbour, Senegal	63
9	ARTICLE 4: Spatial patterns of diarrhoeal diseases risk among children under five years old in Mbour, Senegal: a Bayesian approach	80
10	ARTICLE 5: Knowledge and practice of mothers and caregivers on diarrhoeal management among under 5-year-old children in a medium-sized town of Senegal	96
11	Discussion	107
11.1	Epidemiology of diarrhoea and WASH conditions in Mbour	109
11.2	Effect of climatic factors on childhood diarrhoea in Mbour	111
11.3	Contribution of the spatial sampling and analysis applied in the PhD thesis	113
11.4	Contribution of the thesis to innovation, validation and application	115
11.5	Limitations and recommendations for research needs	117
12	Conclusions and recommendations	119
12.1	Conclusions	119
12.2	Recommendations and policy implications (considering the SDGs targets and climate change impact on diarrhoea)	120
13	References	123
14	Appendix	138
15	Curriculum Vitae	160
