About the Special Issue Editor	vii
Preface to "Energy and Seismic Renovation Strategies for Sustainable Cities"	ix
Paolo La Greca and Giuseppe Margani Seismic and Energy Renovation Measures for Sustainable Cities: A Critical Analysis of the Italian Scenario Reprinted from: <i>Sustainability</i> 2018, 10, 254, doi:10.3390/su10010254	1
Emil-Sever Georgescu, Mihaela Stela Georgescu, Zina Macri, Edoardo Michele Marino, Giuseppe Margani, Vasile Meita, Radu Pana, Santi Maria Cascone, Horia Petran, Pier Paolo Rossi, Vincenzo Sapienza and Marius Voica Seismic and Energy Renovation: A Review of the Code Requirements and Solutions in Italy and Romania Reprinted from: <i>Sustainability</i> 2018, 10, 1561, doi:10.3390/su10051561	20
Sebastiano D'Urso and Bruno Cicero From the Efficiency of Nature to Parametric Design. A Holistic Approach for Sustainable Building Renovation in Seismic Regions Reprinted from: <i>Sustainability</i> 2019, 11, 1227, doi:10.3390/su11051227	56
Riccardo Privitera and Daniele La Rosa Reducing Seismic Vulnerability and Energy Demand of Cities through Green Infrastructure Reprinted from: <i>Sustainability</i> 2018, 10, 2591, doi:10.3390/su10082591	76
Annarita Ferrante, Giovanni Mochi, Giorgia Predari, Lorenzo Badini, Anastasia Fotopoulou, Riccardo Gulli and Giovanni Semprini A European Project for Safer and Energy Efficient Buildings: Pro-GET-onE (Proactive Synergy of integrated Efficient Technologies on Buildings' Envelopes) Reprinted from: <i>Sustainability</i> 2018, 10, 812, doi:10.3390/su10030812	97
Tiziano Dalla Mora, Maria Pinamonti, Lorenzo Teso, Giosuè Boscato, Fabio Peron and Piercarlo Romagnoni Renovation of a School Building: Energy Retrofit and Seismic Upgrade in a School Building in Motta Di Livenza Reprinted from: <i>Sustainability</i> 2018, 10, 969, doi:10.3390/su10040969	123
Mariangela De Vita, Antonio Mannella, Antonio Sabino and Alessio Marchetti Seismic Retrofit Measures for Masonry Walls of Historical Buildings, from an Energy Saving Perspective Reprinted from: <i>Sustainability</i> 2018, 10, 984, doi:10.3390/su10040984	147
Tiziana Basiricò and Daniele Enea Seismic and Energy Retrofit of the Historic Urban Fabric of Enna (Italy) Reprinted from: <i>Sustainability</i> 2018, 10, 1138, doi:10.3390/su10041138	164
Angela Moschella, Antonio Gagliano, Alessandro Lo Faro, Attilio Mondello, Angelo Salemi and Giulia Sanfilippo A Methodology for an Integrated Approach for Seismic and Energy Refurbishment of Historic Buildings in Mediterranean Area Reprinted from: <i>Sustainability</i> 2018, 10, 2448, doi:10.3390/su10072448	184

Marina Fumo, Antonio Formisano, Giulia Sibilio and Antonella Violano
Energy and Seismic Recovering of Ancient Hamlets: the Case of Baia e Latina
Reprinted from: *Sustainability* **2018**, *10*, 2831, doi:10.3390/su10082831 **206**

Rossella Corrao
Mechanical Tests on Innovative BIPV Façade Components for Energy, Seismic, and Aesthetic
Renovation of High-Rise Buildings
Reprinted from: *Sustainability* **2018**, *10*, 4523, doi:10.3390/su10124523 **224**
