About the Special Issue Editors	vii
Preface to "Responsive Architecture"	ix
Marek Zozulák, Marián Vertáľ and Dušan Katunský The Influence of the Initial Condition in the Transient Thermal Field Simulation Inside a Wall Reprinted from: <i>Buildings</i> 2019 , <i>9</i> , 178, doi:10.3390/buildings9080178	1
Pieter Herthogs, Wim Debacker, Bige Tunçer, Yves De Weerd and Niels De Temmerman Quantifying the Generality and Adaptability of Building Layouts Using Weighted Graphs: The SAGA Method Reprinted from: <i>Buildings</i> 2019 , <i>9</i> , 92, doi:10.3390/buildings9040092	16
Isak Worre Foged Thermal Responsive Performances of a Spanish Balcony-Based Vernacular Envelope Reprinted from: <i>Buildings</i> 2019 , <i>9</i> , 80, doi:10.3390/buildings9040080	36
Jacek Abramczyk Transformed Shell Roof Structures as the Main Determinant in Creative Shaping Building Free Forms Sensitive to Man-Made and Natural Environments Reprinted from: <i>Buildings</i> 2019 , <i>9</i> , 74, doi:10.3390/buildings9030074	48
Henri Achten Interaction Narratives for Responsive Architecture Reprinted from: <i>Buildings</i> 2019 , <i>9</i> , 66, doi:10.3390/buildings9030066	80
Jolanta Dzwierzyńska Rationalized Algorithmic-Aided Shaping a Responsive Curvilinear Steel Bar Structure Reprinted from: <i>Buildings</i> 2019 , <i>9</i> , 61, doi:10.3390/buildings9030061	91
Lenka Kabošová, Stanislav Kmeř and Dušan Katunský Digitally Designed Airport Terminal Using Wind Performance Analysis Reprinted from: <i>Buildings</i> 2019 , <i>9</i> , 59, doi:10.3390/buildings9030059	102
Jacek Abramczyk and Aleksandra Prokopska Parametric Creative Design of Building Free-Forms Roofed with Transformed Shells Introducing Architect's and Civil Engineer's Responsible Artistic Concepts Reprinted from: <i>Buildings</i> 2019 , <i>9</i> , 58, doi:10.3390/buildings9030058	117
Aleksandra Prokopska and Jacek Abramczyk Responsive Parametric Building Free Forms Determined by Their Elastically Transformed Steel Shell Roofs Reprinted from: <i>Buildings</i> 2019 , <i>9</i> , 46, doi:10.3390/buildings9020046	140
Wasilah Wasilah The Structural Effectivity of Bent Piles in Ammatoan Vernacular Houses Reprinted from: <i>Buildings</i> 2019 , <i>9</i> , 42, doi:10.3390/buildings9020042	167
Teng-Wen Chang, Hsin-Yi Huang and Sambit Datta Design and Fabrication of a Responsive Carrier Component Envelope Reprinted from: <i>Buildings</i> 2019 , <i>9</i> , 84, doi:10.3390/buildings9040084	178
